HARRIS SEEDS

WHOLESALE PRICE LIST

FOR MARKET GARDENERS AND FLORISTS

1937

HARRIS' BENDERS' SURPRISE MELONS BRING TOP PRICES

Mr. Henry E. Miller of Spencerport, N. Y., sold several thousand bushels of these prime melons at highest prices. The photo shows Mr. Miller's son, Robert, with a truck load ready for market.

JOSEPH HARRIS COMPANY, INC.

MORETON FARM COLDWATER, NEW YORK

DELIVERY OF SEEDS

All vegetable and flower seeds **in this price list** except **Peas, Beans, Sweet Corn and Spinach** will be sent prepaid by parcel post, express or freight **at our option**.

Peas, Beans, Sweet Corn and Spinach will not be sent prepaid unless they are included in any one order **to the value of \$20.00 or more**.

The above offer to pay transportation does not apply to Field and Grass seed, Potatoes, Onion Sets, Fertilizers, etc. Articles other than seeds listed in this catalogue are sent at **purchaser's expense** except where they are quoted "**Transportation paid.**"

Seeds ordered sent *by express* will be so sent at the purchaser's expense.

About Ordering, Shipping, Etc.

Orders may be sent at any time and goods will be shipped at the time specified on the order.

Freight shipments are now handled by the railroads much more promptly than formerly and we advise having all heavy shipments (100 lbs. or more) sent in that way.

When ordering seeds shipped by freight or express please **be sure to give the name of your nearest freight railroad station or express office** if it is different from your postoffice address.

25% of the value of the order must accompany all orders for goods shipped C. O. D. *Plants will not be sent C. O. D.*

Terms and Discounts

Our regular terms are **cash with order**. When cash is sent with order we allow a discount of 5% on vegetable and flower seeds and plants, potatoes, small fruits and accessories.

Field and Grass Seeds are strictly net at prices quoted.

To gardeners of established credit and those who furnish us with satisfactory references we allow the following **time payments** *except on field and grass seed, which are strictly cash with order*.

Bills for seeds, plants, etc., shipped after January 1st are due and payable **net August 1st**.

Bills for goods shipped after August 1st are due **net December 1st**.

Conditions of Sale

No **seeds** are sold by us that we do not **know** are of good vitality and will grow under normal conditions. They are all tested and the per cent that germinates is marked on the package or label.

We assume responsibility of the seeds, plants and bulbs we sell reaching the purchaser in good condition. However, in common with all responsible seedsmen, all our seeds, plants and bulbs are sold on the distinct understanding and with the agreement by the purchaser that we will not be responsible for any loss or damage that may accrue by reason of the failure of the seeds, plants or bulbs to grow or to be of the variety or quality offered. We will not accept or fill orders under any other conditions.

Coldwater, N. Y., Dec. 1, 1936

JOSEPH HARRIS COMPANY, INC.

Our General Retail Catalogue

Our general retail catalogue is issued in January. It contains more complete descriptions of the varieties listed here. Also a full line of garden accessories, fertilizers, insecticides, etc.

Your copy will be mailed to you as soon as issued. If you do not receive it, let us know. We will gladly send copies to your friends on request.

HARRIS SEEDS *for* 1937

WHOLESALE PRICE LIST

For MARKET GARDENERS and FLORISTS

WE ARE ALWAYS AT IT!

THE above photo shows a crew at work on our farm, hand-pollinating muskmelons. This is just a small sample of the kind of work which we do all summer long in the improvement of our stocks.

We know that a good seedsman, like a good grower, cannot stand still and be satisfied with his stocks, so "we are always at it," constantly striving to produce new and better varieties and to improve our regular strains.

QUICK SERVICE

YOU can be assured when you send us an order that you will not have to wait for your seeds. During the shipping season orders are sent out promptly on arrival, and the fast mail, express and freight service we have now will get them to you quickly and in good order.

According to Our Tests

96 per cent
of this seed germinates

EVERY LOT OF SEED IS TESTED

A LABEL similar to this is put on every lot of Harris' Seeds that is sold. The figures of course vary.

THE PRICES quoted in this list apply only to orders from market gardeners, florists and institutions, who use seed in considerable quantities. *All prices here quoted are subject to change without notice and to our stocks being unsold.*

For prices of seed in quantities less than listed here, please refer to our general catalogue.

We will be pleased to quote special prices to anyone buying larger quantities of any one variety than we list here. Please write.

*Spargol (Ger.)***ASPARAGUS***Sparagio (It.)***Mary Washington—Large, early and "rust resistant"**

This is the best of the "rust resistant" varieties originated by the United States Department of Agriculture at Washington. Our seed is the true strain and will produce the finest stalks.

Oz. 15c; ¼ lb. 40c; 1 lb. \$1.25; 10 lbs. \$11.50.

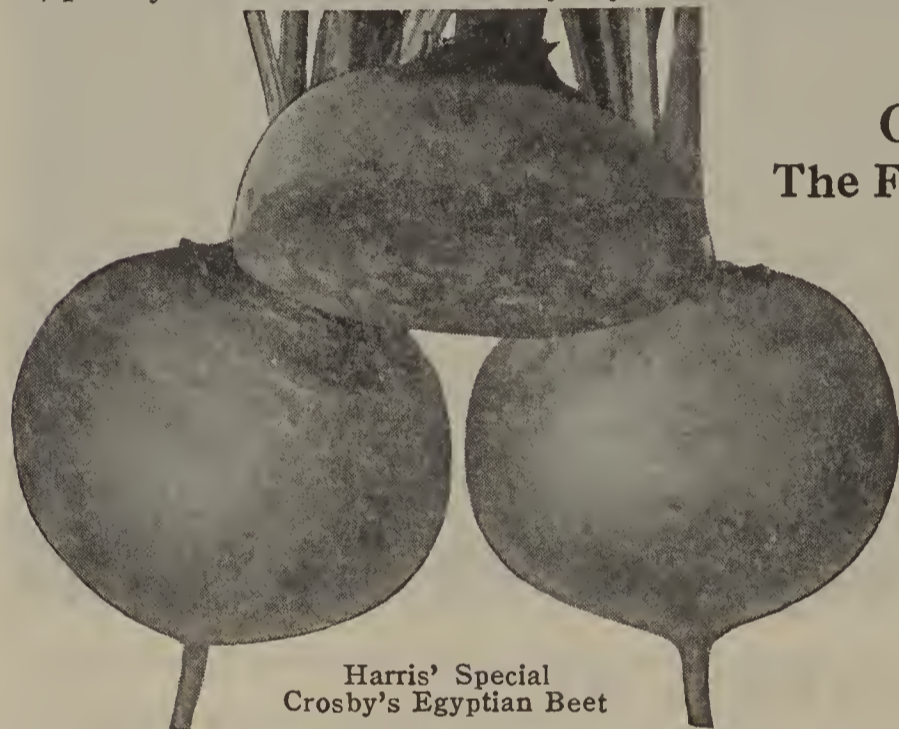

ASPARAGUS ROOTS. See page 34.

*Artichoke (Ger.)***ARTICHOKE***Carciofo (It.)*

LARGE GREEN GLOBE. The Standard Variety. Produces the flower buds which are used for food the second year after sowing the seed. The plants are not hardy and require protection in winter north of Virginia. Oz. 50c; ¼ lb. \$1.50; 1 lb. \$5.00.

*Ruebe (Ger.)***BEETS***Barbabetole (It.)*

¼ lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre (for rows 18 in. apart.)

Harris' Special
Crosby's Egyptian Beet

**Harris' Special
Crosby's Egyptian Beet
The Finest Beet For Early Bunching**

"Every one a model for shape and color." We've repeated this many times, but as we checked many trials this summer and inspected our "mother roots" as they were pulled this fall, that phrase seemed to be the only way to describe this strain. Over thirty years of intense breeding and selection is bound to show results. This beet is not only very true but as early as any kind we know. We are proud of our stock of this grand beet and can confidently say that it is the finest of the type grown. See price below.

Harris' Special Detroit Dark Red Beet

We find it almost impossible to grow enough seed of this beet to meet our customers' demands. Canners tell us that there is nothing quite so satisfactory for type and color.

Market Gardeners find this an extra fine beet for late summer and fall bunching. Due to the short crop of seed for 1937 we advise growers who wish to be sure of getting our stock to place their orders early. See price below.

	¼ lb.	1 lb.	10 lb.	100 lb.
CROSBY'S EGYPTIAN. Harris' Special Strain. See above....	\$.35	\$1.00	\$ 9.50	\$ 90.00
CROSBY'S EGYPTIAN. Bright Red Strain.30	.95	9.00	80.00
Color lighter red than Harris' Strain. Popular in some markets.				
DETROIT DARK RED. Harris' Special Strain. See above....	.35	1.00	9.50	90.00
Early Blood Turnip.25	.75	7.00	65.00
A good old variety, large flat beets.				
EARLY WONDER. A Superior Strain for Bunching.35	1.00	9.50	90.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is very fine.				
Egyptian Blood Turnip.25	.75	7.00	65.00
Flatter than Crosby's and is preferred by some for early bunching.				
LONG SEASON. Called "Winter Keeper" and "New Century"..	.45	1.40	13.50	125.00
A very late variety of extra fine quality. Description in Retail Catalogue.				
LONG SMOOTH BLOOD RED.25	.75	7.00	65.00
8 to 10 inches long and very dark red. Grows half out of the ground.				

MANGELS AND SUGAR BEETS—For Stock

MAMMOTH LONG RED. The Most Popular Variety.15	.45	4.00

See our General Catalogue for full descriptions of Mangels

Bohnen (Ger.)

BEANS

Fagioli (It.)

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

Beans in this price list are quoted f. o. b. Coldwater, N. Y. Purchaser pays transportation on beans, except as follows:

If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

25 lbs. or more of one variety will be supplied at 100 lb. price. A bushel of beans weighs 60 lbs.

BEANS FOR 1937

When you start to compare prices, remember there is a big difference in stocks of beans. The price of our beans is as low as we can grow them from selected foundation stocks in disease free fields. You may be able to buy beans cheaper but you cannot buy any better than the ones we list.

BOUNTIFUL

The Best Flat Podded Green Bean

There is no better stock of Bountiful Beans obtainable than our seed. We have seen this proved time after time in our own trials and in the fields of our customers. This stock is high yielding, the pods are handsome, light green, straight, flat and entirely stringless. See price below.

A Customer Writes of Our Stock of Bountiful:

"I have harvested a crop from 100 lbs. of seed purchased this spring from you and they are pronounced the finest in Boston Market, and we realized about 270 bushels of beans from this seed."

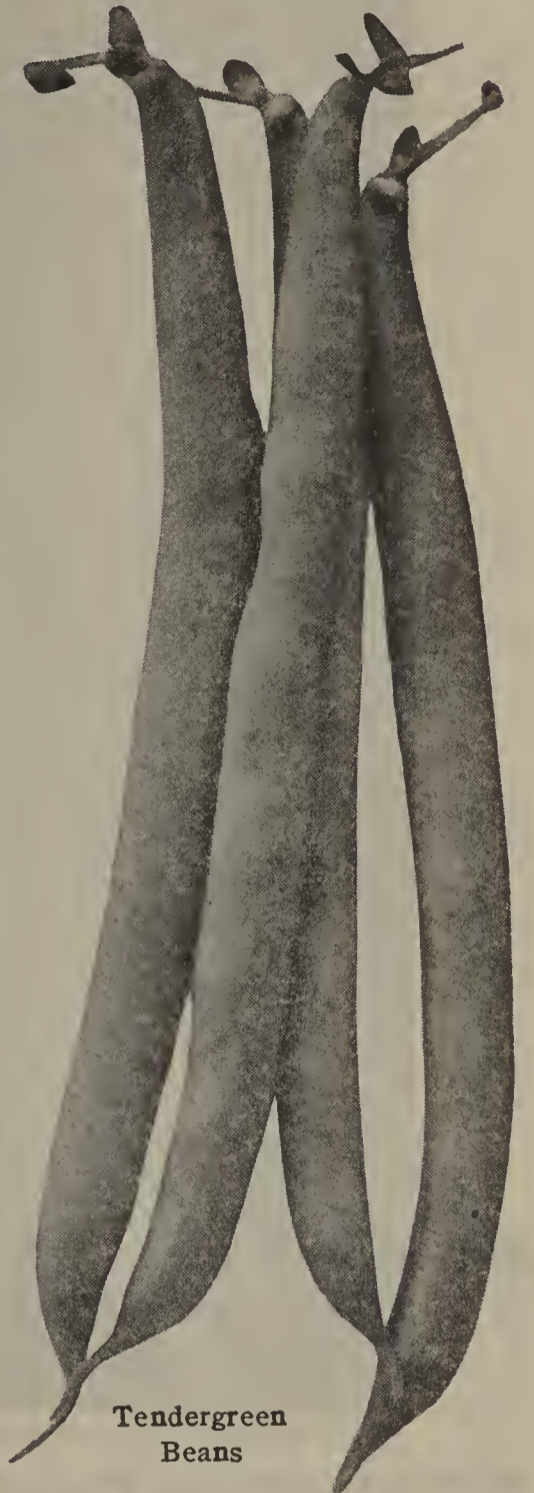

James W. Turner, Egypt, Mass., Aug. 9, 1936.

TENDERGREEN Beans

The Best Round Pod Green Bean

Our stock of Tendergreen Beans has become so popular with our customers during the past few years, that now we sell over twice as much of it as we do of all other round podded green varieties combined.

Market Gardeners who want a handsome, early, straight, round podded green bean of high yield and superb quality should grow Harris' Strain of Tendergreen. See price below.

Tendergreen Beans

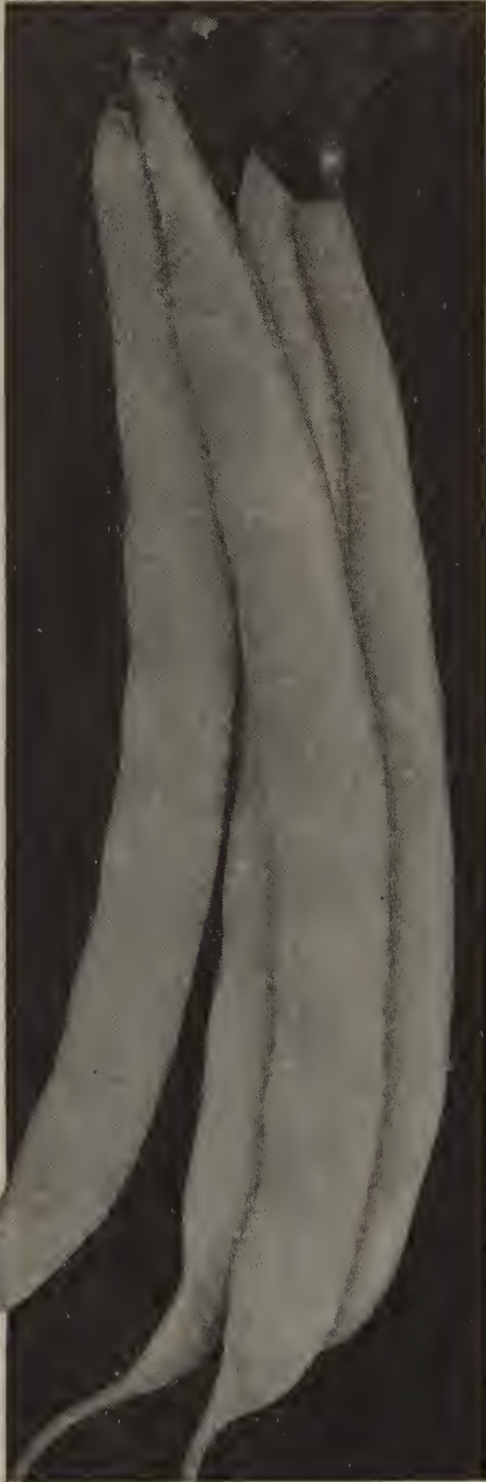

Dwarf Green-Podded Varieties

NOT PREPAID*

	2 lb.	7 1/2 lb.	15 lb.	100 lb.	500 lb.
BLACK VALENTINE	\$.45	\$1.30	\$2.40	\$13.00	\$60.00
A profitable market bean. Produces immense crops of long, straight, light green pods, round and very attractive in appearance but not stringless.					
BOUNTIFUL. Very Fine Stock. See above.....	.50	1.45	2.55	14.00	65.00
FRENCH HORTICULTURAL. Special Stock60	2.05	3.75	22.00
Superior in length of pod, yield and superb color to any stock we know. We advise ordering early as we will without doubt be sold out before planting time.					
Giant Stringless Green Pod45	1.35	2.40	13.00	60.00
Round pod, stringless, good yielder.					
Lowe's Champion60	1.60	2.85	16.00
One of the Horticultural or Cranberry beans. Pods 5 in. long, flat, green, straight and stringless.					
Longfellow50	1.45	2.55	14.00	65.00
Long, straight, round, dark green pods. Not stringless.					
Ruby Dwarf Horticultural. Also called "Roman" Beans ..	.60	1.60	2.85	16.00
Used for shelling green. Pods light green splashed with deep red.					
STRINGLESS BLACK VALENTINE (Asgrow)50	1.45	2.55	14.00	65.00
One of the most prolific and earliest green beans. Entirely stringless. Nearly round podded when young. True stock.					
TENDERGREEN. Early and Prolific. See above.....	.50	1.45	2.55	14.00	65.00

*We prepay freight charges if your order for vegetable seeds including beans amounts to \$20.00 or more.

BEANS continued on next page.

New Stringless Davis White Wax

BEANS—Continued

New Stringless Davis White Wax**Long Straight Pods—White Seeded**

We wish all our customers could have seen this new bean in our trials. The heavy yield of long straight pods was very impressive.

This new strain has not only the long straight, flat, clear yellow pods together with the abundant yield and strong robust plants of the old variety, but in addition is *much earlier and entirely stringless*, maturing snap beans about the same time as Sure Crop. Many growers prefer a white seeded kind as the beans may be left and harvested for baking beans if desired. See price below.

Sure Crop Wax**The Best Flat Wax Bean**

If your trade demands a *flat* wax or yellow bean you will do well to grow our strain of Sure Crop. The vigorous healthy upright growth of the plants, combined with enormous yields of long straight pods have made this one of the most popular and profitable market kinds. We are confident that there is no better strain grown than ours. See price below.

Pencil Pod Black Wax**The Best Round Podded Wax Bean for Market**

Grown from carefully bred stock seed, which has been especially selected for vigor, high yield and true type. We are pleased to offer such a fine true stock of this variety which is so popular on many markets. See prices below.

"I have used your seeds for more than 15 years and have never been disappointed in any of them. I cannot say that about all the seeds I have bought elsewhere. I believe it is only fair to mention it and tell other growers about it. I like your practice of marking the germination percentage on every package and have found the percentage of germination as indicated practically correct. A. A. Van Gunten, Holland, Ohio, July 7, 1936.

Dwarf Wax Varieties

NOT PREPAID*

	2 lb.	7½ lb.	15 lb.	100 lb.
PENCIL POD BLACK WAX. Best Round Pod Wax. See above...	\$.55	\$1.50	\$2.70	\$15.00
ROUND POD KIDNEY WAX or Brittle Wax.60	1.60	3.00	17.00
Pods 5 to 6 in. long, round, clear yellow, stringless and medium early.				
STRINGLESS DAVIS WHITE WAX (New). See above.60	1.60	2.85	16.00
SURE CROP WAX. The Best Flat Wax Bean. See above.55	1.50	2.70	15.00
UNRIVALLED WAX. For Early Market.60	1.60	2.85	16.00
Early flat pods, heavy yielder.				
WEBBER WAX or "Wonder Wax." The Earliest Wax Bean.55	1.50	2.70	15.00
The pods are long, straight, flat, stringless and quite free from rust. A heavy bearer. Also called "Cracker Jack."				

LIMA BEANS

A pound of Dwarf Lima seed will plant 150 ft. of row. About 60 lbs. per acre.

A pound of Pole Lima seed will plant 100 ft. of row or about 80 hills.

NOT PREPAID*

	2 lb.	7½ lb.	15 lb.	100 lb.
BURPEE'S BUSH LIMA. Wonder Strain.	\$.55	\$1.60	\$2.85	\$16.00
Large, flat beans, medium early.				
Burpee's IMPROVED Bush Lima.55	1.65	3.00	17.00
Larger pods and thicker beans than the old variety and deeper green in color.				
FORDHOOK BUSH LIMA. Best for Market.60	1.75	3.15	18.00
We offer a superior strain of this popular variety. The pods are uniform with large thick deep green beans.				
Henderson's Bush Lima.55	1.45	2.55	14.00
Small flat pods and beans, early and very prolific.				
IDEAL or Mammoth Podded POLE LIMA.60	1.75	3.15	18.00
Pods often 8 in. long, early and prolific. <i>This is the best large podded Pole Lima.</i>				

*We prepay freight charges if your order for vegetable seeds including beans amounts to \$20.00 or more.

POLE BEANS

A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.

King Horticultural—Harris' Special Large Seeded Strain

We are very proud of this special strain which we have bred from a single plant selected on our farm some years ago. The writer, like everyone else who saw our field this year, was greatly impressed by the earliness and enormous yield of pods. The pods are long for this variety (only an inch shorter than French Horticultural) straight, very attractive, heavily splashed with bright scarlet at the shell stage and entirely stringless. The seed is exceptionally large. These large attractive pods are sure to command highest prices on any market where the Horticultural type bean is wanted. We have a limited supply of seed to offer this year. See price below.

Note—Although this is classed as a pole bean; when grown on good, well drained, sandy soil, it can be grown without supports. The pods grow just as long and straight and they can be picked as easily as the dwarf kinds.

Scotia Beans

This is one of the earliest pole beans and has long been a home garden and roadside market favorite because of the superior quality. It has been shown lately that if these beans are well grown on poles or trellises and picked at the right time (while the pods are bright green) they are in great demand as soon as people try them, and always command top prices.

We know of one grower this last summer who sold his entire crop in New York at a substantial increase over the prevailing prices and at a time when green beans were very plentiful. The pods are long, round, slender, green in color and the vines wonderfully prolific. See price below.

	NOT PREPAID*			
	2 lb.	7½ lb.	15 lb.	100 lb.
Golden Cluster Wax.....	\$.60	\$1.90	\$3.45	\$20.00
Long, broad, deep yellow pods of finest quality; beans white.				
Kentucky Wonder. Also called "Old Homestead".....	.55	1.50	2.70	15.00
Long, slender, green pods of fine quality. Early and very prolific.				
Kentucky Wonder Wax.....	.55	1.50	2.70	15.00
Long, flat, yellow pods of fine quality. One of the best wax pole beans.				
KING HORTICULTURAL. Special Large Seeded Strain				
See above.....	.60	1.90	3.45	20.00
SCOTIA. Finest Quality. See above.....	.60	1.90	3.45	20.00
White Dutch Runner. <i>Crop failed</i>

FIELD BEANS

Sow about 60 lbs. of Field Beans per acre.

	NOT PREPAID*			
	2 lb.	7½ lb.	15 lb.	100 lb.
BOSTON MARROW or White Marrowfat. Perry Strain.....	\$.55	\$1.45	\$2.55	\$14.00
RED KIDNEY.....	.55	1.45	2.55	14.00
Robust Pea Beans. Mosaic Resistant.....	.45	1.35	2.40	13.00
White Kidney.....	.55	1.50	2.70	15.00

*We prepay freight charges on beans if your order for vegetable seeds including beans amounts to \$20.00 or more.

BROCCOLI

Italian Green Sprouting (Calabrese)

Our stock is the true Italian Calabrese type which produces the best broccoli we have ever seen. It is important to get seed which will produce large compact central heads and good solid side shoots after the center head is cut. You can depend on the Harris strain to do this.

Oz. 50c; ¼ lb. \$1.50; 1 lb. \$5.00.

BRUSSELS SPROUTS

Rosenkohl (Ger.)

Cavolo di Brussels (It.)

1 oz. of seed will produce about 3000 plants.

Long Island Improved Special Strain

This is an outstanding strain of Long Island Improved Brussels Sprouts. The plants are not tall but the stems are completely covered with large and very firm sprouts. The high percentage of large sprouts and the high yield make this a most profitable strain to use.

Oz. 50c; ¼ lb. \$1.35; 1 lb. \$4.50.

Italian Green Sprouting Broccoli

Use a non-poisonous insecticide to control cabbage worms on Broccoli and Brussels Sprouts. We recommend *Sulrote*. See page 48.

Blumenkohl (Ger.)

CAULIFLOWER

Cavolo-flore (It.)

One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.

Mr. Hiram Fairbairn, of Arkville, N. Y. is proud of his Super Snowball Cauliflower

Super Snowball Cauliflower True Originator's Strain Early—Large Heads

The popularity of this wonderful cauliflower has brought out many strains under a number of different names. We have found in our extensive trials that there is no strain superior to the *true originator's stock* which we have sold continuously since the introduction of this variety in 1929.

We strongly advise our customers not to take chances with their Super Snowball but to use this proven original strain which has been so extremely satisfactory for the past eight years. See price below.

Snowball Cauliflower—Perfected Strain

This is still the best main crop Snowball which we know, and we can confidently state that the seed we offer is the finest strain obtainable. The heads are unusually heavy, of uniformly good size, beautifully white with a deep tight attractive curd. There is no use paying more than we charge for Snowball cauliflower as no better seed can be bought at any price. A trial will convince you. See price below.

"We had excellent results with your Snowball Cauliflower this year."
Joseph Schickler, Coldwater, N. Y. Dec. 12, 1935.

New Early American Snowball

This new kind which we introduced last year again proved to be outstanding in our trials for earliness and large fine tight heads.

The plant is rugged with an abundance of long broad leaves, which protect the head until it is quite large. Under adverse growing conditions this year this new variety produced uniformly *large deep* heads with a somewhat rough yet tight curd of a beautiful snow white color. Practically every plant made a good head.

Growers who tried this kind this year were well pleased. If you have not tried it we urge you to do so. We are sure you will like it.

Danish Glory

Matures about midway between our Super Snowball and Perfected Snowball. It is a selection from late plants of Super Snowball and as such it carries the good points of Super Snowball. It has a sturdy plant with broad curled leaves which wrap over and protect the young heads. It matures very evenly, a large percentage of the crop being ready to cut during a short period. These heads are large, somewhat deeper than Super Snowball, snow white and with a very attractive tight curd which compares well with the best Snowball.

This new kind has proved itself to be a uniformly good header under many different growing conditions during the past three years and is rapidly finding an important place among critical cauliflower growers. Price below.

	1/4 oz.	Oz.	1/4 lb.	lb.
Danish Giant Snowball or "Dry Weather"	\$.50	\$1.60	\$5.75	\$20.00
Ten days or two weeks later than Snowball and more vigorous. Stands drought.				
DANISH GLORY (NEW). See above85	2.65	9.00	32.00
DANISH PERFECTION. For late market50	1.60	5.75	20.00
Heads very solid and without protruding leaves. A week later than Snowball.				
EARLY AMERICAN SNOWBALL (NEW). See above85	2.65	9.00	32.00
ERFURT EARLY DWARF. (Catskill) Madsen's Stock No. 350	1.60	5.75	20.00
Much like Snowball, but has somewhat shorter stems.				
ITALIAN PURPLE. Large purple heads (Late)35	1.00	3.40	12.00
This is a true cauliflower, but the heads have a purple tinge and do not require tying. The demand for these cauliflower far exceeds the supply.				
SNOWBALL. Perfected Strain. See above50	1.60	5.75	20.00
SUPER SNOWBALL. See above75	2.25	8.00	30.00

Kraut (Ger.)

CABBAGE

Cavolo capucci (It.)

One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames. It requires 4 to 6 oz. of seed to produce plants for an acre of ground.

Hot Water Treated Seed

We can supply hot water treated seed of the varieties of cabbage we list in this catalogue at no advance in cost. Hot water treated seed is usually a little lower in germination. We will supply untreated seed on all orders unless treated seed is specifically requested.

Golden Acre

The Earliest Cabbage

Every market grower knows that this fine cabbage is one of the most profitable varieties to grow. The thing to do is to get the true stock which will produce round solid heads that are uniform in size and maturity.

This strain which we offer is the true originator's stock which we have sold for years and is much superior to most stocks sold even at a much higher price. See price below.

Golden Acre Cabbage

Golden Acre Special

Best Strain of Golden Acre Obtainable

This finely bred strain of Golden Acre is we believe the most perfect strain of early cabbage in existence. We strongly recommend this stock to the grower who wants absolutely the best and is willing to pay the little extra cost for seed which actually amounts to only about 80c per acre. See price below.

Early Round Red (New)

This is the earliest red cabbage we know, making good solid heads about the same time as a good stock of Copenhagen Market which it resembles in almost every character except color.

The heads are uniformly very round, solid and of deep red color with an attractive "bloom." Almost every head is exactly alike. The plants are compact, so they can be planted close and even under adverse conditions practically every plant makes a good head. See price below.

Large Late Copenhagen—Best for Late Market and Kraut

This cabbage is the true Copenhagen type but fully two weeks later and can be cut for main crop or if desired they can be left in the field for kraut. The heads will actually increase in size up to 10 to 12 inches in diameter without splitting or getting soft. Our strain is very uniform in type and will produce enormous yields of the finest kraut cabbage. See price below.

Early Varieties

	Oz.	1/4 lb.	1 lb.
COPENHAGEN MARKET. True Large Headed Stock.	\$.30	\$.90	\$3.00
Our strain is larger and more uniform than usual strains of this variety. Heads round, hard and have few outside leaves. Larger and about 10 days later than Golden Acre.			
EARLY ROUND RED (NEW). See above 1/4 oz. 30c	.90	3.00
Early Jersey Wakefield. Early Pointed Heads.45	1.20	4.00
Our strain is particularly fine, the heads being very uniform and early.			
ENKHUIZEN GLORY. True Originator's Strain.25	.70	2.25
A very large, medium early cabbage. Heads as large as the late kinds and mature much earlier. Has proved to be a most profitable variety for market and kraut.			
GOLDEN ACRE. The Earliest Cabbage. See above.35	1.10	3.50
GOLDEN ACRE. Special Strain. See above.60	1.90	6.50
GOLDEN ACRE. Yellows Resistant. 1/4 oz. 35c	1.00
True to type and earliness and in addition will produce good crops on diseased soil where regular Golden Acre cannot do well. We have but a limited amount of seed.			
LARGE LATE COPENHAGEN. Best for Kraut. See above.35	1.00	3.25
MARION MARKET. "Yellows" Resistant. Copenhagen Type.60	1.75	6.00
We have a true stock of this variety which should be grown for market and kraut by farmers whose soil is infected with cabbage "yellows." Crop short.			

Harris Ballhead—Deep Solid Heads—Best for Storage

We recommend this superior deep heading strain of Danish type cabbage as the best we know. It is the result of a number of years of careful selection and pure line breeding on our own farm and in our opinion and that of many of our customers will produce more tons of fine solid Danish cabbage than any strains we know of. The heads are deeper than many stocks, remarkably heavy for their size, and greener in color than most strains. They are outstanding keepers in storage.

It will pay you to grow this stock. The slight extra cost of seed amounts to but a few cents per acre and is returned many fold by the extra tonnage you can get. See price on next page.

CABBAGE continued on next page.

CABBAGE—Late or Main Crop Varieties

	Oz.	$\frac{1}{4}$ lb.	lb.
ALL SEASONS. The Best "Domestic" cabbage	\$.25	\$.70	\$2.25
We recommend this strain for growers who want the best in yield and type of the large flat "domestic" cabbages.			
DANISH BALLHEAD. Intermediate. "Fine Keeper."30	.90	3.00
Heads are deeper and not as flattened as the short stemmed. The color is deeper green and they keep very well in storage. A profitable type to raise.			
DANISH BALLHEAD Short Stem. Heavy yielding strain30	.85	2.75
This is a very fine strain producing large yields of uniform heads which are medium large, solid and of good deep green color. An excellent variety for storage.			
HARRIS BALLHEAD. See preceding page45	1.20	4.00
This is a very true strain of Danish cabbage of our own selection.			
Midseason Market. Crop failed
PENN STATE Ballhead. True Stock30	.90	3.00
Short stemmed with very solid heads, which are somewhat flatter than most Danish types. This cabbage is noted for the large yield of fine heads.			
Premium Flat Dutch25	.70	2.25
SAVOY. Perfection Drumhead. Market Gardener's Strain30	.90	3.00
Heads are large, of fine quality and quite firm. The color is a deep green, and the leaves are very much curled. Matures late and keeps all winter. This is an extra fine strain for market and roadside stand.			
WISCONSIN HOLLANDER. Heavy Yields. "Yellows" Resistant45	1.20	4.00
We have a true stock of this cabbage which will produce good crops on ground so diseased with "yellows" that ordinary cabbage will not grow. Danish type.			
MAMMOTH ROCK RED. Sure Heading Strain35	1.10	3.50
The largest red cabbage. The heads are hard, round and deep red. This is the best late red kind for market or shipping. Crop short.			

CHINESE CABBAGE

Chinese cabbage has proved to be a very profitable crop for muck as well as up-land. The seed is sown in July or August and the crop matures in eight to ten weeks.

	Oz.	$\frac{1}{4}$ lb.	lb.
CHIHLI. Much the Best Variety	\$.30	\$.90	\$3.00
This variety has proved to be the most popular and best for market and roadside stands, almost entirely replacing all other kinds. The heads are very attractive, often 18 in. long, uniform in shape and solid. This variety has proved a very successful crop when grown on muck.			
Pe-Tsai25	.75	2.50
Large heads. 18 to 20 in. high.			
Wong Bok25	.75	2.50
Short compact heads of fine quality.			

Carroten (Ger.)

CARROTS

Carota (It.)

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

Imperator—Outstanding for Bunching

This is the fine bunch carrot which is shipped to Eastern markets from California. It does just as well here and is rapidly becoming very popular for the high class bunch trade. The carrots are long (8 in.) smooth, somewhat tapering and deep orange in color. The tops are just right for bunching. We offer the true stock. See prices on next page.

Morse's Bunching

An Excellent New Sort for Market

This new carrot is becoming more and more popular in many sections for bunching. When we dug our trials this year we could not help being impressed with the striking appearance of this variety. The carrots are long (8") smooth, slightly tapering with a stump root when fully mature and with good tops for tying. They are very attractive, deep orange, clear to the tip, entirely coreless and of fine quality. See prices on next page.

Chantenay Special Strain

Grows about an inch longer than Red Cored and most strains of Chantenay which are usually sold. It is also superior in shape and smoothness. This carrot has proved a popular bunching variety, as well as an excellent kind for "busheling." See prices on next page.

CARROTS continued on next page.

Imperator Carrots

Nantes—Coreless

This is the *coreless* variety that is used so much for bunching on markets. The carrots are six to seven inches long, smooth, cylindrical, stump rooted, *entirely coreless* and of finest quality. They are very attractive both when tied in bunches or topped in baskets. See prices below.

Red Cored Chantenay—A Superior Variety for Market and Cannery

The fine quality of this carrot has made it rapidly replace the old style Chantenay as a market and canning kind. Our strain of Red Cored Chantenay has been constantly improved and will be found to be exceptionally fine. It is almost entirely coreless, smoother and more uniform than many other strains which we have seen. See prices below.

	¼ lb.	lb.	10 lb.
CHANTENAY. Special Strain. See page 8.....	\$.30	\$1.00	\$ 9.00
CHANTENAY. Red Cored. See above.....	.30	1.00	9.00

PERFECTION. A Larger "Coreless".....	.55	1.75	16.50
This carrot is similar to Amsterdam Forcing, but is larger, being 6 to 8 inches long. They are practically the same size the whole length and <i>coreless</i> . Fine for fall market.			
TENDERSWEET. The Sweetest Carrot.....	.45	1.40	13.00
This carrot is being grown more and more for market. The striking deep reddish orange color, good bunching character and superb quality have made it popular.			

Sellerie (Ger.)

CELERY

Sedano (It.)

An ounce of seed will produce about 8000 plants. It requires 20,000 plants to the acre.

Golden Plume or Wonderful

The Best Yellow Celery

Many of the best celery growers in the country get their seed of Golden Plume from us. They have found that by using our stock it is not necessary to pay a fancy price in order to get the best results.

The stalks of our special stock are *very large* with remarkably *heavy hearts* and with *thick solid stems* which are *unusually long* between the root and first joint. Constant improvement has made our stock even better in this respect than when it was first introduced. There is not one green stalk in a thousand and no soft ones.

The seed we offer is of strong germination and we can confidently recommend it. No finer strain obtainable *at any price*. See price on next page.

Golden Self Blanching

Old Strain

Dwarf Full Hearted

We have a very fine stock of this popular variety. The stalks are large, just tall enough to nicely fill a standard celery crate without trimming, and have large heavy hearts. Good celery men find this a very profitable strain to grow especially for the late crops. See price on next page.

Mr. Adrian Sonnevile, of Macedon, N. Y. with some of his Harris' Golden Plume Celery

CELERY continued on next page.

Golden Pascal—A New Golden Celery of Superb Quality

This distinct new variety which was introduced last year is really a yellow celery with the shape and excellent quality of the finest green kinds. The stalks are very thick and rounded and longer to the first joint than most varieties. They blanch quite readily to a clear creamy yellow and when blanched are very brittle and tender, having a nut-like and pleasing flavor.

This celery grows taller than Golden Plume and matures at about the same time as Old Strain Golden Self Blanching. See prices below.

Yellow or "Self-Blanching" Varieties

	Oz.	¼ lb.	lb.
GOLDEN PASCAL (New). See above ¼ oz. 50c	\$1.60	\$5.75	\$20.00
GOLDEN PLUME or WONDERFUL. See page 975	2.35	8.00
GOLDEN SELF-BLANCHING. "New" Strain. Tall75	2.35	8.00
Grows very rapidly and is strong and healthy, resisting blight well. Some growers think it is too tall for late crop and storage, but prefer it for the early crop.			
GOLDEN SELF-BLANCHING. "Old" Strain. See page 975	2.35	8.00

Salt Lake or Utah—The Best Green Celery

Growers who have used our stock of this variety the last seven years have continued to be very enthusiastic about it as it supplies a long felt need for a superior green celery for storage.

The plant grows to a good height, not too tall, and makes a well developed and heavy heart. The individual stalks are *very thick*, crisp and of high quality. They blanch more quickly than other green varieties, and we have seen fields with thousands of plants and not a single soft stalk.

The Harris' Strain produces uniformly large compact plants. See price below.

Green Varieties

	Oz.	¼ lb.	lb.
EASY BLANCHING or "Newark Market"	\$.60	\$1.75	\$6.00
A very good variety to follow Golden Self-Blanching. It is the same dwarf, compact habit of growth, blanches easily and quickly, and is of fine quality. The leaves are green and the stalks pure white when blanched. Also called Sanford Superb.			
GIANT PASCAL. Special Strain50	1.50	5.00
This strain of Giant Pascal is largely used in New England and is considered one of the very best for late winter market. The stalks are large, very solid and blanch pure white. This strain is far superior to the ordinary Giant Pascal.			
SALT LAKE or UTAH. The Best Green Celery. See above75	2.35	8.00

CELERIAC—Turnip-Rooted or "Knob" Celery

	Oz.	¼ lb.	lb.
LARGE SMOOTH PRAGUE. Best for Market	\$.25	\$.75	\$2.50
This is the standard market garden variety.			
DELICACY. Grow for fine quality30	.90	3.00
This variety produces medium size bulbs of superior quality.			

Gurken (Ger.)

¼ lb. of seed will plant about 300 hills or 200 ft. of row. It requires about 2 lbs. of seed per acre.

Harris' Double Yield Pickles
Note the uniform shape

CUCUMBERS

Cetriolo (It.)

Harris' Double Yield Pickle The Most Prolific Variety

Harris' Double Yield is not only much more prolific than other kinds but is also *earlier*. These cucumbers mature two weeks before other kinds are ready and on this account many gardeners find it profitable to grow as an early market variety for slicing. The fruit is 5 to 6 inches long when ready for slicing.

When the small cucumbers are kept picked off as fast as they get to the right size for pickles, the vines produce an astonishing number. The young cucumbers are often produced in clusters of three or four like the fingers of your hand.

The cucumbers are very straight with blunt ends, medium deep green in color and of the very best shape for small pickles. See price on next page.

Straight Eight—A New Very Prolific Long White Spine Cucumber

This new variety has found favor among growers who have tried it because of the large number of fine straight cucumbers which the vines produce. When ready for market the cucumbers are 8 to 9 inches long, straight and smooth. The color is medium dark green with green rays at the blossom end. This new kind is well worth trying. See price on next page.

CUCUMBERS continued on next page.

CUCUMBERS—Continued

Harris' Perfection
The Finest Long Green Variety

Year after year we compare this variety with the best and newest long green kinds and always find that for all around good qualities it tops the list. We have been breeding this cucumber for a good many years and have now so perfected it that the fruit is more uniform in shape, size and color than any other kind we know. Many of our customers tell us that because of its evenness in size and handsome deep green color, Harris' Perfection commands a *premium* over other varieties.

The fruit is white spined, long, straight, smooth and handsome, deep green with small white rays on the blossom end. It retains this deep green color for a long time after picking. The cucumbers will average over a foot long when matured and some reach 15 inches in length.

This variety is well adapted for dill pickles as well as for general market. See price below.

Mr. Joseph Schickler of Coldwater grows his Harris' Perfection Cucumbers between rows of sweet corn.

IRONDEQUOIT HOTHOUSE—Greenhouse Bred Strain

This is the famous variety which has been developed by the greenhouse growers around Rochester. The seed has been saved entirely from perfect fruit grown under glass in the well known Irondequoit gardening section and will produce remarkably fine uniform cucumbers. The fruit is long, slender, and deep green. It is nearly perfectly solid with very few seeds. The vines are vigorous and very prolific. 100 seeds \$1.00; 500 seeds \$4.00; 1000 seeds \$7.00.

	Oz.	1/4 lb.	1 lb.	10 lb.
CHICAGO PICKLING	\$.12	\$.30	\$ 1.00	\$ 9.00
Very prolific and profitable for pickles. The young fruit is straight, square ended and of medium deep green color. Black Spine.				
CHINA. Finest Quality45	1.20	4.00
Grows 15 to 20 in. long and very slender. This is an excellent kind for roadside stands. Their length and smoothness give them the appearance of hothouse-grown ones. For full description see our retail catalogue.				
DAVIS' PERFECT15	.40	1.25	11.50
Long straight fruit, tapering at both ends, very dark green, holds its color.				
EARLY FORTUNE. Selected Stock15	.40	1.25	11.50
A very fine strain of White Spine. It is medium early and productive, excellent for market and pickles. The fruit is 7 to 9 inches long, slightly tapering and of deep green color. It holds its color well when shipped.				
EARLY WHITE SPINE. For Pickles12	.30	1.00	9.00
Early and very productive. Excellent for pickles as well as for slicing.				
Green Prolific or Boston Pickling12	.30	1.00	9.00
Very prolific; short, bright green fruit. A profitable variety for pickles. B. S.				
HARRIS' DOUBLE YIELD PICKLE. Black Spine. See page 10.	.20	.55	1.75	15.00
HARRIS' PERFECTION. The Finest White Spine. See above...	.20	.60	1.85	17.50
IMPROVED LONG GREEN15	.45	1.50	14.00
Very popular for both table use and for pickles. A Black Spine variety and turns deep yellow when ripe.				
IRONDEQUOIT HOTHOUSE. For Forcing. See above
KLONDIKE. White Spine12	.30	1.00	9.00
Lemon Cucumber20	.60	1.85	17.50
A real cucumber about the size and shape of a lemon. For table and pickling.				
LONGFELLOW. Long Slender Dark Green20	.60	1.85	17.50
We have the true strain with long smooth dark green fruit of highest quality which always commands good prices.				
Perfected Jersey Pickle12	.30	1.00	9.00
Longer and more slender than Chicago and Boston Pickling. An excellent variety. Black Spine.				
STRAIGHT EIGHT (New). See page 1025	.75	2.50	22.50
West India Gherkin25	.70	2.20	20.00
WOODRUFF'S HYBRID. First Class Stock15	.40	1.25	11.50
Grows 8 to 10 in. long and stays green a long time. We have a very fine strain.				

*Welschkorn (Ger.)***SWEET CORN***Mais (It.)*

One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre. A bushel weighs 48 lbs.

Note—25 lbs. of one variety will be supplied at the 100 lb. rate.

At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the FREIGHT charges.

Harris' Northern Grown Sweet Corn

For many years we have made a specialty of growing sweet corn seed of the highest quality and due to our efforts in careful scientific selection and breeding to improve the earliness, yield and quality, the demand for Harris' Sweet Corn has grown so that we are now large growers of the best market varieties.

We are very fortunate this year when good sweet corn seed is not plentiful, to have ample supplies of first class seed to take care of our normal requirements. However, we anticipate an increased demand and advise our customers to order their season's supply early.

Write for special prices on larger lots than quoted here.

Canada Gold Sweet Corn

Canada Gold (NEW)**Large Ears, Heavy Yield and EARLY**

As we see more of this new variety we are more firmly convinced of its merit, as an early corn. Growers in increasing numbers are using it and since we introduced it two years ago our sales have increased rapidly. It is only a few days later than Golden Early Market and will produce longer ears.

The ears are often *nine inches long*, with 8 to 12 rows of deep butter yellow kernels of excellent quality. The plant is strong, tall and sturdy, often producing two good ears on a stalk. This is a real achievement in sweet corn breeding and we urge any who have not yet grown this kind to try some this year. See prices on page 14.

Golden Early Market (Gill's)

Same as Golden Hummer, Extra Early Golden, Extra Early Yellow, Etc.

This is one of the earliest kinds, but to be safe be sure to get seed of the true original stock as there are many different and inferior strains of this popular variety sold under a great many names.

The ears are 7 to 8 inches long with 10 to 12 rows of broad bright yellow kernels. These large attractive ears are sure to command the highest prices on the early market. We obtained our stock seed from the originator and have carefully grown our seed crop here in the North for the last four years. See prices on page 14.

Harris' Extra Early Bantam**Extra Early Yellow Sweet Corn**

Northern Grown Seed—grown under our careful supervision on nearby farms from our own selected stock seed.

This excellent variety has proved to be one of the most profitable extra early yellow kinds that has ever been introduced.

The ears grow up to 7 inches long with 8 to 10 rows of golden yellow kernels. They are just like Golden Bantam in appearance and quality but they mature 10 days earlier.

The yield is heavy. We know of no corn maturing so early which will produce such a large number of fine ears as Harris' Extra Early Bantam. The whole crop can be picked and sold before the market becomes flooded with the later kinds. See prices on page 14.

Hybrid Sweet Corn

Hybrid Sweet Corn has taken a very definite place among the varieties most used for market and canning and deservedly so. However, there are so many hybrids that there is a great deal of confusion in regard to their respective merits and uses. Many think that a hybrid must be good simply because it is a *hybrid*, which is not true.

We observe many hybrids in our trial grounds each year and a great many of them show the results of careless growing and inferior parentage. Good hybrids can only come from carefully selected pure line parent stock and constant detasseling of the seed parent in the field. This is expensive work *but it is the only way that first class hybrid stocks can be grown.*

Early Bancross 39

A New Early Crossed Corn

We've gotten a big kick out of the way this corn has performed in our trials and our customers who tried it last year have been just as enthusiastic. They tell us there's nothing like it.

The ears are very attractive, $7\frac{1}{2}$ to 8 inches long, cylindrical and with 10 to 14 rows of bright yellow kernels. The plant is rugged and prolific, with the majority of the plants producing two good ears.

Our seed of this new hybrid has been produced under our careful supervision by a top cross of Purdue 39 on our own selected stock seed of Harris' Extra Early Bantam. In our trials the ears have matured 10 days earlier than Golden Cross Bantam. This corn should be sown at the same rate as the open polinated varieties.

As is true with all crossed corn, seed produced from this seed should not be saved to sow next year.

See prices on next page.

Golden Cross Bantam

Wilt Resistant—High Yielding—Uniformly Large Ears

Sow not more than six pounds per acre.

Now a standard variety for areas which are infected with Stewart's Disease (wilt) and in many other places that grow canning and market corn. Every pound of the seed we offer was grown here in Western New York from pure line parents and was thoroughly detasseled. This is the *only way* that pure Golden Cross Bantam can be produced.

This corn produces *large crops* of beautiful ears, having 10 to 14 rows of light golden yellow kernels which are remarkably uniform in length (about 8 in.) and of excellent quality. They mature about a week later than Golden Bantam, the whole crop ripening at nearly the same time.

As is true with all crossed corn, crops produced from this seed should not be saved for seed next year.

See prices on next page.

Whipple's Yellow

Harris' Original Northern Grown Stock

We are the *original* introducers of Whipple's Yellow Corn and since its introduction in 1920 we have constantly bred and selected it for earliness, uniformity of size and high yield.

We have seen many other stocks of Whipple's Yellow grown in comparison with our own and have been greatly impressed by the fact that ours stands head and shoulders above all the rest. *You cannot afford to grow just an ordinary strain of this fine corn.*

Every pound of this variety which we sell is grown here in the North, on or near our own farm, from our own carefully bred stock seed. The only safe way to do is to buy your seed direct from headquarters and you will be sure that you are getting the true original Whipple's Yellow.

Note—When ordering please write "Whipple's Yellow" not just "Whipple's" as that will confuse it with Whipple's Early which is a white corn. See prices on next page.

Early Bancross 39

SWEET CORN—Continued

	NOT PREPAID*			
	1 lb.	6 lb.	12 lb.	100 lb.
Yellow Varieties				
BANTAM EVERGREEN	\$.30	\$1.15	\$2.05	\$14.00
One of the best late yellow corn. Ears large straight rowed and fine quality. Our Northern grown seed is very superior.				
BUTTERCUP. Noted for Quality30	1.15	2.05	14.00
A larger, improved Golden Bantam. The long slender ears always command a premium on markets. A very superior stock of our own breeding.				
CANADA GOLD (NEW). Early large ears. See page 1235	1.40	2.50	18.00
The outstanding new early corn.				
EARLY BANCROSS 39. New Early Hybrid. See page 1350	2.85	5.00	40.00
GOLDEN BANTAM. True Strain30	1.15	2.05	14.00
Small, medium early, kernels yellow and of fine quality. Our stock is carefully bred to the true original type and is far superior to most Golden Bantam.				
GOLDEN Country Gentleman. Grow for quality. (Late)35	1.40	2.50	18.00
The large attractive ears and superb quality make this a fine corn for late market and roadside sales. The kernels are irregular like the old white variety but deep golden in color. One of the sweetest varieties grown.				
GOLDEN CROSS BANTAM. See page 1350	2.40	4.55	35.00
Large yielding—wilt resistant.				
GOLDEN EARLY MARKET (Gill's) same as Golden Hummer and Extra Early Yellow. See page 1230	1.25	2.30	16.00
GOLDEN GEM. The Earliest Variety30	1.20	2.15	15.00
This corn is still the earliest we have yet found. Does not grow tall.				
Golden Giant30	1.15	2.05	14.00
A good yellow corn to follow Bantam as it matures a week later and has larger ears, 12 rowed, and the corn is of high quality.				
Golden Sunshine30	1.20	2.15	15.00
An extra early yellow corn. Matures a week earlier than Golden Bantam. Ears 6 to 7 in. long, 12 rowed and deep yellow. Quality very good.				
HARRIS' EXTRA EARLY BANTAM. See page 1230	1.25	2.30	16.00
WHIPPLE'S YELLOW. Largest Early Yellow. See page 1330	1.15	2.05	14.00

Whipple's Early (White)—The Largest Early White Corn

This variety has proved so popular since we introduced it in 1919 that many inferior strains are now being sold. The seed we offer is all *Northern grown here in Monroe County* from our own carefully selected stock seed. Get your seed from the original introducer of this variety and you will be sure it is right. See prices below.

	NOT PREPAID*			
	1 lb.	6 lb.	12 lb.	100 lbs.
White Varieties				
Country Gentleman. Extra fine quality	\$.30	\$1.25	\$2.30	\$16.00
Late; small ears, of fine quality.				
GILL'S EARLY MARKET. The Earliest White Corn. Large Ears30	1.20	2.15	15.00
This is the earliest white sweet corn yet produced and is earlier than any sweet corn we know except Golden Gem. The ears are large having 12-14 rows and often 8 inches in length. We recommend this variety where an extra early white corn is desired.				
LONG ISLAND BEAUTY. Selected Stock30	1.20	2.15	15.00
Large late, ears 16-18 row, over 12 in. long with deep white kernels. Our seed is all grown from our own specially selected stock seed.				
MIMMS' HYBRID. Pedigree Strain30	1.15	2.05	14.00
This is an outstanding medium late kind. Ears are large, 12-14 rows of pure white kernels of fine quality. Earlier than Evergreen and better yielder.				
STOWELL'S EVERGREEN. Early Strain30	1.20	2.15	15.00
We have a fine Northern grown strain that is <i>10 days earlier</i> than Western grown seed.				
WHIPPLE'S EARLY (White). See above30	1.20	2.15	15.00

25 lbs. or more of one variety will be supplied at the 100 pound rate.

*We prepay freight on sweet corn if your order for vegetable seeds including sweet corn amounts to \$20.00 or more.

POP CORN

	Oz.	¼ lb.	lb.	10 lbs.
ITALIAN DANDELION. Cicoria Catalogna.	\$.25	\$.75	\$ 2.50	\$

Large dark green dandelion like leaves, which are cut several times during the season for "greens." Ours is the true stock.

THICK LEAF. Dark Green.50	1.35	4.50	40.00
------------------------------------------	-----	------	------	-------

This strain is the dark green, dark ribbed variety. We know of no finer stock of this kind.

WHITE RIB or ARLINGTON STRAIN55	1.60	5.50	50.00
------------------------------------------------	-----	------	------	-------

This dandelion seed which we offer is the finest Market Gardener's strain and produces large stocky thick leaved plants with "white ribs." New seed of high germination.

Dill (Ger.) **DILL** **Aneth (It.)**
Long Island Mammoth
 This dill is much superior to the common dill, being larger and more productive.
 Oz. 10c; ¼ lb. 20c; lb. 70c; 10 lbs. \$6.00; 100 lbs. \$55.00.

In the past I have sent part of my yearly order to you, but I am sending a large order to you this time; your seeds were so much better than the others that I want yours as the best.
 Feb. 1, 1936. **WM. E. PINCKNEY, Watervliet, N. Y.**

EGG PLANT

Eier pflanze (Ger.) **Melanzani (It.)**
 An ounce of seed will produce about 2000 plants.

Black Beauty—Early Prolific Strain

We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy, producing an abundance of uniformly large handsome dark purple fruit even here in the North. See price below.

Black Beauty Egg Plant

	Oz.	¼ lb.	lb.
BLACK BEAUTY. True Stock. See above.	\$.45	\$ 1.20	\$ 4.00
EARLY LONG PURPLE. Early and Prolific. Dark. True Stock.45	1.20	4.00

Fruit 10 to 12 inches long, not over 2 to 3 inches through. Early and very prolific, deep purple color.

Extra Early Dwarf Purple.45	1.20	4.00
--------------------------------------------	-----	------	------

Very early and prolific, but not as large as above kinds.

Fenchel (Ger.) **FENNEL** **Finocchio (It.)**

	Oz.	¼ lb.	lb.
Florence. True Italian Stock.	\$.15	\$.40	\$ 1.25

MAMMOTH. Large Round Bulb. Best for Market.15	.45	1.50
--------------------------------------------------------------	-----	-----	------

This exceptionally fine strain produces large, round bulbs.

MOUNTAIN or Wild.20	.55	1.75
------------------------------------	-----	-----	------

This strain is finer leaved than the others, and grows with a more spreading habit. It does not form a large bulb.

*Endivien (Ger.)***ENDIVE***Endivia (It.)**An ounce of seed will sow about 100 feet of row; 2 to 2½ lbs. per acre.*

	Oz.	¼ lb.	lb.
GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed.	\$.15	\$.45	\$1.50
<i>The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. Grown extensively by market gardeners. This variety does best on rich soil.</i>			
Green Curled15	.45	1.50
<i>Large leaves finely cut and curled. Green ribbed.</i>			
FLORIDA DEEP HEART15	.45	1.50
<i>Broad leaves, dark green, slightly curled, produces large deep heads, which blanch well in the center. One of the best varieties, especially for late market.</i>			
FULL HEART BATAVIAN (Escarolle). True Dark Green Strain15	.45	1.50
<i>Our strain of this variety produces heads which are tightly packed with broad dark green leaves. Blanches well.</i>			

“FRENCH ENDIVE”—Witloof Chicory*Special Forcing Strain—Grown from Selected Forced Heads*

This crop can be grown during the winter in a dark place with very little expense. There is a good demand for “French Endive” in the markets of all the large cities.

The seed we offer is an exceptionally fine strain, being grown from *especially selected fully developed forced heads*. This seed will give a very high percentage of perfect heads. *An ounce of seed will produce 3000 to 5000 roots.* Oz. 45c; ¼ lb. \$1.20; lb. \$4.00.

*Knoblauch (Ger.)***GARLIC***Aglio (It.)*

The bulbs should be separated into flakes or “cloves” and set out like onion sets. Bulbs for planting: Lb. 45c; Transportation paid. Not paid: 5 lbs. or more 35c per lb.

*Blatterkohl (Ger.)***KALE***Cavolo verdi (It.)**One pound of seed will sow about one acre of land.*

Lattuga (It.)

An ounce of seed will sow 250 feet of row. About 2 lbs. per acre.

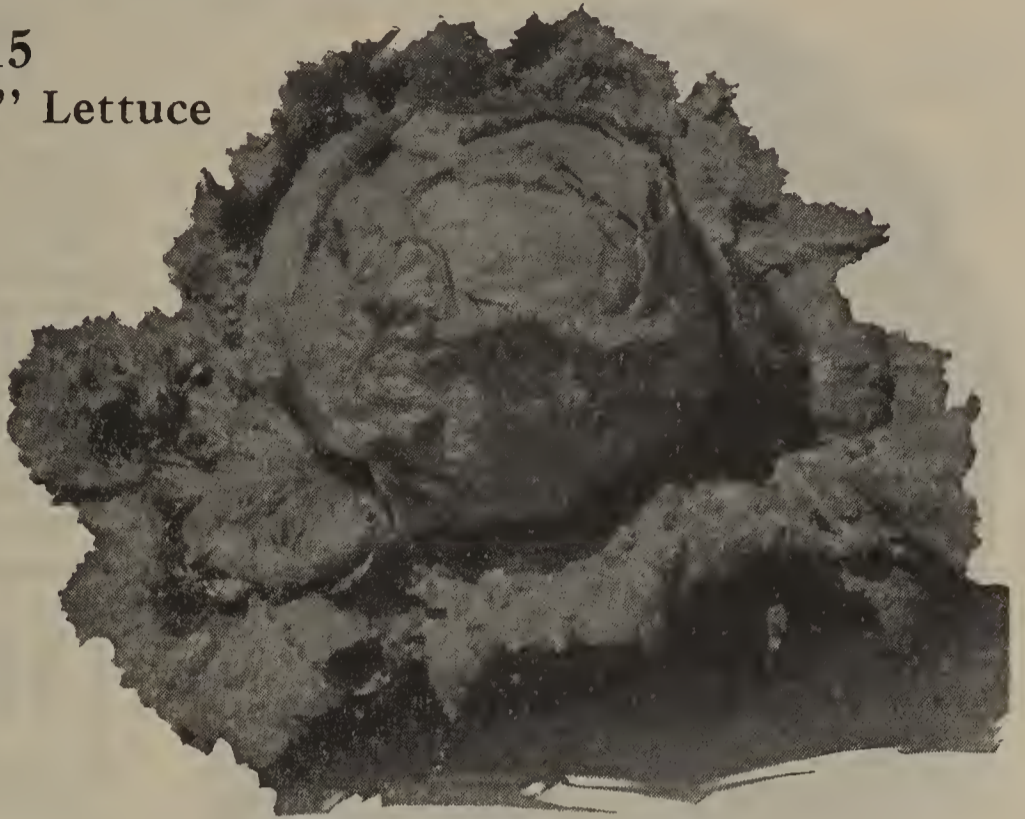

New York No. 515

A New "California Iceberg" Lettuce for the East

This early strain of New York or Wonderful is the surest heading stock which we have ever grown. Nearly every plant made a good solid head even during the hot weather.

In type and general appearance this new strain is much the same as New York No. 12, having large solid heads with few outside leaves, and is of an attractive bright green color. In our trials New York No. 515 matured a little earlier than New York No. 12.

We urge growers who have not been successful in raising the New York type of lettuce to try this new strain. See price below.

New York No. 515 Lettuce. Grown on Moreton Farm

White Boston—Special Strain

During the past summer on muck land our stock showed remarkable freedom from "tip burn" at times when many other stocks were 100% infected.

You cannot get a better strain of White Boston Lettuce no matter what you pay for the seed. Our stock is *equal to any strain obtainable* even at twice or three times the price we charge.

One important thing about the Harris' Strain of White Boston is the uniform manner in which it heads, so that there is practically no waste in cutting a crop. See price below.

Grand Rapids U. S. No. 1—A Better Forcing Curly Lettuce

This new strain of Grand Rapids has proved to be very superior both for forcing and outdoor growing where a "curly" lettuce is desired and is well worth trying. The plants are a little larger and more robust than other strains, very uniform for size and well curled. The color is the much desired light green. See price below.

	Oz.	¼ lb.	lb.	10 lb.
BIG BOSTON. Special Strain(100 lbs. \$90.00)	\$.15	\$.40	\$1.25	\$10.00
We offer an exceptionally fine strain of this popular variety. The heads are solid and compact, standing a long time without bolting. We can confidently state that there is no better stock than ours.				
Black Seeded Simpson15	.40	1.25	11.50
Chicken15	.40	1.25	11.50
Immense leaves. Runs up rapidly. Use for green feed for chickens.				
COS or ROMAINE. Trianon Self-folding. The best variety15	.45	1.50	14.00
Large long heads of fine quality and attractive appearance. Used for forcing under glass and for outside culture in spring and fall. This variety always finds a ready sale in the markets.				
Crisp as Ice25	.75	2.50	22.50
Forms compact, medium size heads very early. The heads are tinged with deep brown. The quality is very fine.				
GRAND RAPIDS15	.45	1.50	14.00
This strain is excellent for greenhouse growing and is used by the most critical greenhouse men. The leaves are light green, uniformly well curled and the plants strong and sturdy.				
GRAND RAPIDS. U. S. No. 1. See above25	.70	2.20	20.00
Iceberg15	.45	1.50	14.00
For open ground. Large, firm heads, curled and blistered leaves; light green.				
May King. For Frame Forcing15	.40	1.25	11.50
A very early head lettuce for open ground or forcing.				
Mignonette25	.75	2.50	22.50
An early small headed reddish brown tinged lettuce.				
NEW YORK No. 12—California "Iceberg." For the East20	.60	2.00	19.00
This improved early strain of this variety is especially valuable for the East.				
NEW YORK No. 515. New "Iceberg" Type. See above25	.75	2.50	22.50
Prize Head20	.55	1.75	16.50
Early, crisp, loose heads; leaves curled and tinged with reddish brown.				
SALAMANDER. (Dreer's All Heart or Black Seeded Tennis Ball)15	.40	1.25	11.50
Large heads, stands well in hot weather.

Melone (Ger.)

MUSKMELON or Cantaloupe

Popone (It.)

An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.

Delicious Muskmelon

**Delicious Muskmelon
The Earliest Large Melon**

This fine melon is becoming more and more popular for local sales and roadside stands. It is the earliest large melon of high quality we have ever raised, and we recommend it highly for roadside trade and local markets. It will not stand long distance shipping.

We have grown this melon on our own farms for a number of years, carefully selecting our stock for earliness, large size and high quality. We have never seen a strain equal to ours. See prices below.

Germāco

Hotkaps

Protect your young plants from frost, wind and insects.

MUSKMELONS continued on next page.

Bender's Surprise Muskmelon Harris' Strain—Specially Selected—Northern Grown

We have bred and grown our strain for over fifteen years here where our seasons are short always paying special attention to high quality, earliness and trueness of type. This careful selection has made the Harris' Strain the one outstanding stock of this variety.

There is no muskmelon quite equal to the Bender's for attractive appearance, fine flavor, size and keeping qualities. But be sure of your seed. There is no use buying inferior seed when Harris' Northern Grown Strain can be purchased at such a low price. See prices on page 18.

Sugar Rock or Honey Rock

We have a fine true stock of this popular melon.

The melons are nearly round about 5" in diameter, with a light green skin which turns to pale yellow when ripe. They are hard as a rock and covered with coarse heavy netting.

The flesh is thick, deep orange, of fine texture and of an excellent flavor. See prices on page 18.

The "Aristocrat"—Also Called "Golden Combination"

This is truly the "Aristocrat" of muskmelons. It is the melon for the expert grower who has a market for large melons of the finest flavor. While this melon will grow and do well under ordinary conditions it reaches the "peak of perfection" when given the best care and grown on good rich soil. It is slightly later in season than the Bender.

The "Aristocrat" is a large handsome melon and one of the heaviest we have ever known; the flesh often being 3 inches or more thick; deep orange yellow in color and unquestionably the finest flavor we have ever tasted. This melon should be picked just at the time it requires a hard pull to separate the stem cleanly from the fruit, or about one day before one would ordinarily pick the fruit of most other varieties. If left too long on the vine it will become soft.

The Aristocrat is not recommended for distant markets, but for the roadside stand and the grower who has a trade requiring only the best, it will command the highest prices. Try some this year. See prices on page 18.

The "Aristocrat" Muskmelon
Note the thick flesh

Schwaum (Ger.) MUSHROOM SPAWN Fungo pratajola (It.) *Full directions for growing are sent with each order of spawn.*

Finest pure culture spawn, absolutely fresh. Mushrooms can be raised in cellars or under greenhouse benches where the temperature can be kept between 50 and 60 degrees.

BRICK SPAWN. (White). One brick will spawn 10 to 12 square feet of bed.

Price: One brick 40c; 3 bricks \$1.10; 10 bricks \$3.00. Prepaid. Not prepaid: 100 bricks \$20.00. Write for prices on larger quantities.

BOTTLE SPAWN. (White). Grown in bottles under sterile conditions after which the bottle is removed and the spawn packed in a carton. One carton will spawn 40 sq. ft. of bed.

Price: Single Carton \$1.25; 3 cartons \$3.00. Prepaid. Not prepaid: 10 or more cartons at 80c per carton. Weight per carton about 1 lb. Write for prices on larger quantities.

MUSTARD

ONIONS

Cipolle (It.)

An ounce of seed will sow 125 feet of row. It requires 5 to 6 lbs. of seed per acre.

Early Yellow Globe The Best Early Yellow Onion

We don't know of any onion which has attained such popularity in so short a time, or which deserves it more. It is not only early, but produces enormous crops of large fine looking onions that command the best prices.

The onions mature at least two weeks before Yellow Globe Danvers, are globe shaped, deep yellow in color and with a thick skin which makes them handle without loss and keep well in storage. This is an especially fine onion for muck land.

We offer seed of the true strain of Early Yellow Globe which has produced enormous yields for our customers during the past three years. See prices below.

This crop of Harris' Early Yellow Globe yielded 1400 bu. per acre.

Riverside Sweet Spanish

This fine onion can be grown almost anywhere in the East and is becoming more popular each year. It not only is an excellent variety for upland but muck growers are finding that it is a very profitable kind to grow for part of their crops. The onions are large and handsome often weighing a pound or more.

They require a little more time than the early varieties but are vigorous, hardy growers, withstanding adverse weather conditions and also have remarkable keeping qualities. Riverside Sweet Spanish is also grown successfully from plants (see opposite page) and produce extra large perfect onions which command the highest prices. See prices on next page.

Brigham Yellow Globe

Brigham Yellow Globe

Also Called "Michigan Onion" and "Michigan Strain"

This remarkable onion is rapidly becoming a leading kind for muck as well as upland growers. It is outstanding because of the large yields obtained, the fine deep brown color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is of the true *Brigham Strain* and is even more uniform for shape and size than it was when first introduced. See prices below.

GERMINATION TESTS

We shall be glad to tell any onion grower how our seed of any variety he is interested in germinates in our tests, before he buys the seed.

	See	¼ lb.	lb.	10 lb.	100 lb.
BRIGHAM Yellow Globe. Also called "Michigan Onion." See above	...	\$.85	\$2.75	\$26.00	\$250.00
EARLY YELLOW GLOBE. Best early globe onion. See above85	2.75	26.00	250.00
EBENEZER or "Japanese"60	2.30	21.00	200.00
A very fine yellow onion that will keep all winter and is of mild, pleasant flavor. The onions are flattened and of a light, yellow color.					
EXTRA EARLY BARLETTA. For Pickling60	2.00	19.00	185.00
The best small white onion for pickling. Sow about 50 lbs. per acre.					
JAPANESE BUNCHING. Large straight onions70	2.25	20.00	195.00
Grow 3 to 5 large straight mild white onions to a plant, is a rapid grower and produces marketable "bunch" onions very early. When fully grown, onions nearly are inch in diameter.					

ONIONS continued on next page.

ONIONS—Continued

	¼ lb.	1 lb.	10 lb.	100 lb.
Large Red Wethersfield.	\$.70	\$2.25	\$20.00	\$195.00
Very large, deep red, flat. The best early flat red onion.				
Mammoth Silver King.70	2.25	20.00	195.00
Very large white, flat onion used principally for bunching while green. Seed sown in the spring makes large bunching onions in July and August.				
MOUNTAIN DANVERS. For Early Market.60	1.95	18.50	175.00
A fine globe shape onion, deep yellow in color and very firm. It ripens two to three weeks earlier than Yellow Globe Danvers—and is a fine keeper.				
OHIO YELLOW GLOBE.60	1.95	18.50	175.00
We have a fine true strain of this popular variety. It produces large crops of fine shape, long keeping onions.				
Prizetaker.75	2.50	22.50	215.00
Large yellow onion of very handsome globe shape and mild flavor.				
RIVERSIDE SWEET SPANISH. See preceding page.75	2.50	22.50	215.00
SOUTHPORT RED GLOBE. The Best Red.70	2.25	20.00	195.00
Large, perfectly round, deep red onion; keeps well and is by far the best red variety. Ours is a very superior stock.				
SOUTHPORT WHITE GLOBE.75	2.50	22.50	215.00
The largest and finest white onion. A very profitable variety for experienced growers as it always commands the highest prices.				
SOUTHPORT YELLOW GLOBE.60	1.95	18.50	175.00
Of deep globe shape, large size. A week later than Yellow Globe Danvers.				
WHITE BUNCH. (White Lisbon)60	2.00	19.00	185.00
Popular in many markets. Forms mild sweet "green" onions early and flat medium size bulbs when mature.				
WHITE PORTUGAL or SILVER SKIN. Standard for Bunching.60	2.30	21.00	200.00
Flat, white onion of mild flavor and early. Excellent for pickling and early green onions.				
White Welsh. Bunching Onions60	2.00	19.00	185.00
Does not form a bulb, but makes 3 to 7 onions to the plant; can be sown in the summer for early spring bunching onions. Perfectly hardy.				
YELLOW GLOBE DANVERS.60	1.95	18.50	175.00
Our stock of this popular variety will produce onions of uniform globe shape with deep color and tight skin. We know of no better stock.				

ONION SETS

One peck of sets will plant 600 to 700 feet of row. Use 20 bu. per acre.

Onion sets this year are scarce and good stocks hard to obtain. However we have some very fine sets which we can offer as long as they last.

Note—At prices here quoted purchaser pays transportation on onion sets.

EBENEZER or "JAPANESE." The Best Yellow Sets. True Stock. Up to 7/8" diameter. 8 lbs. (Pk.) \$1.25; 32 lbs. (Bu.) \$4.00; 5 bu. or more at \$3.85 per bu.

EBENEZER. Special Grade. Up to 1/2" diameter. 8 lbs. (Pk.) \$1.50; 32 lbs. (Bu.) \$5.00; 5 bu. or more at \$4.75 per bu.

SILVERSKIN (White). Best for bunching. 8 lbs. (Pk.) \$1.25; 32 lbs. (Bu.) \$4.00; 5 bu. or more at \$3.85 per bu.

ONION PLANTS

These plants which are grown in Texas have proved excellent for raising both early green onions and dry bulbs for late summer sale. More gardeners find it profitable each year to grow onions from our plants and our sales of onion plants in the past few years have steadily increased from a few thousand to over a million.

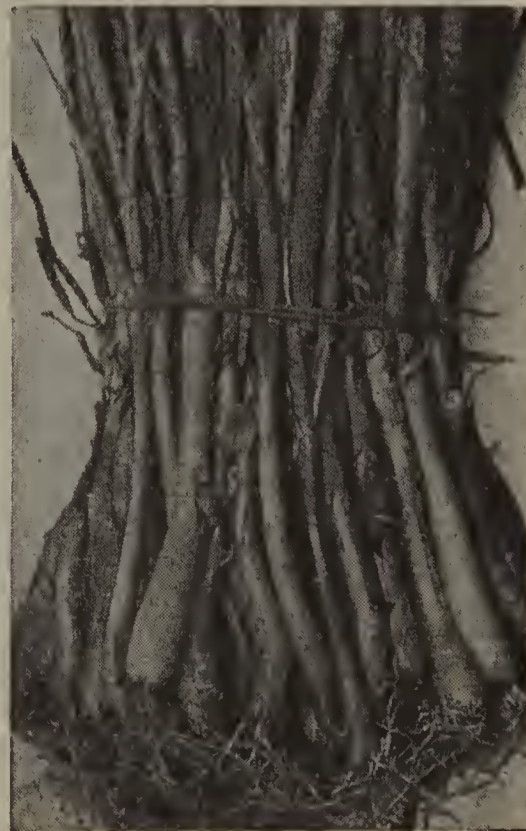

RIVERSIDE SWEET SPANISH. (Yellow). When set in the spring will produce large firm onions in 8 to 10 weeks. Grown from true seed; produces large onions of the finest type.

CRYSTAL WAX. (White). Best to grow green bunching onions. If allowed to mature the onions are large, flat, white and of superb flavor.

The above plants are tied in bunches of about 100 plants; 60 bunches (about 6000) make a full crate.

Price of either variety: 10 bunches (about 1000 plants) \$1.50; Full crate (about 6000 plants) \$6.00. Purchaser pays transportation. Weight per 1000, 6 lbs. Write for prices on larger lots.

Note: Onion plants can be supplied between April 25 and May 15th only. These plants can be ordered at any time for shipment between the above dates. Please state on the order when you want the plants sent.

A Single Bunch of Onion Plants (about 100 plants)

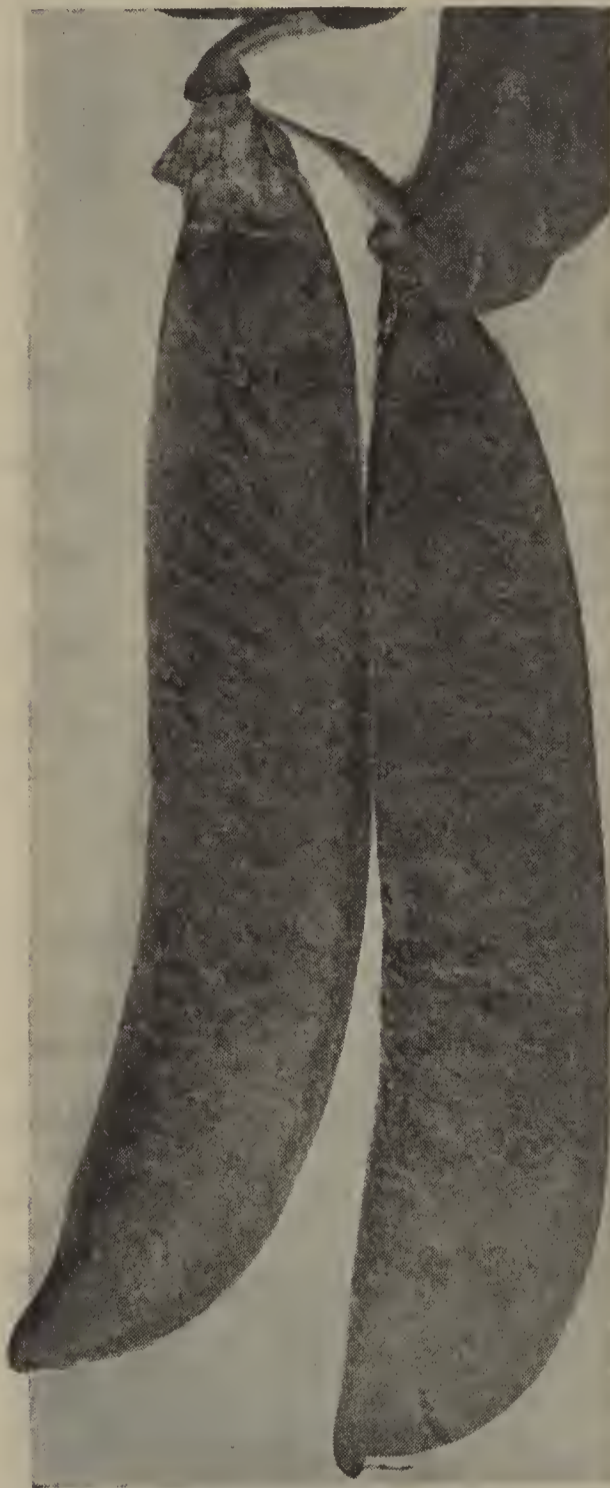

*Erbesn (Ger.)***PEAS***Piselli (It.)*

One pound of peas will plant 100 ft. of row. Two to five bushels per acre.

Note—For prices of peas in amounts of less than 7½ lbs. please see our general catalogue.

25 lbs. or more of one variety will be supplied at the 100 lb. rate.

*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.

Rogers Gilbo Peas

Rogers Gilbo**New Large Podded Main Crop Peas**

This fine new variety is one of the outstanding sorts of the Midseason Giant group, and resembles that variety very closely. Compared to Midseason Giant, Gilbo has the same sturdy vine and large yield of big pods, but is a few days earlier in season. Our experience shows also that Gilbo is more hardy so that the seed can be sown earlier than Midseason Giant. This is a real advantage.

The pods are very attractive, 4½-5" long, dark green and pointed. The quality is very superior. We recommend this new variety highly and urge growers to try it this year. See prices on next page.

Mammoth Podded Extra Early Peas**The Most Profitable Early Kind**

This *large podded* pea has become the leading extra early kind and is one of the most profitable market varieties grown. It is not only very early being ready only a day or two after Alaska or Surprise but the pods are as large as many later kinds. The pods are deep green in color, 4 inches long and borne in great profusion on strong vines.

This pea is so hardy that it can be sown as soon as the frost is out of the ground. Seed semi-wrinkled. *The seed we offer is from the true originator's stock* producing an abundance of pods which are the true large early type.

See prices on next page.

Laxton's Progress Peas**Large Podded—Medium Early**

The big handsome well filled pods of this fine variety find a ready sale, making this one of the best kinds to follow the extra early sorts.

The vines grow 15 to 18 in. high and are covered with an abundance of large deep green pods 4 to 4½ in. in length. The peas ripen so uniformly that ordinarily two pickings will clean up the crop. The stock we offer of this excellent variety is very superior, producing heavy yields of large handsome pods.

See prices on next page.

Dwarf Alderman**A true large podded Alderman type with dwarf sturdy vines.**

One of the best new large podded dwarf peas, and has become very popular for main crop. The pods are 4½-5" long (as large as Alderman) but has the advantage of dwarf vines, the pods being borne in great abundance on strong sturdy vines about 2 ft. high. Matures about the same time as Alderman. These large dark green attractive pods will command good prices on any market and are well worth growing. See prices on next page.

Midseason Giant

Also called—Giant Stride, Asgrow 40, Number 10, Wyoming Wonder, etc.

We highly recommend this new variety for market gardeners and the roadside stand. It comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are large (4½ to 5 in. long) dark green and pointed. The yield is high, the pods being borne in great numbers on strong vigorous vines about 24 in. high.

This is a high quality wrinkled variety and should not be sown until the weather is settled. See prices on next page.

Pastinake (Ger.)

PARSNIPS

Pastinaba (It.)

An ounce of seed will sow 150 ft. of row. Sow 2½ to 3 lbs. per acre.

Harris' Model

The Whitest Parsnip

Our customers find that this is the best parsnip that they can grow.

The parsnips are hollow crown and of good length, but not too long. The roots are smooth, snow white, and have practically no side roots or prongs. Their whiteness is quite remarkable, giving the roots a very attractive appearance. They sell for highest prices.

Our seed is of our own growing from transplanted and very carefully selected roots. Despite the dry weather the seed we harvested this year is bright and plump and of strong germination.

Oz. 15c; ¼ lb. 40c; lb. \$1.20; 10 lbs. \$11.00; 100 lbs. \$100.00.

LONG HOLLOW CROWN. Long smooth roots, not as uniform or white as Model.

Oz. 10c; ¼ lb. 25c; lb. 75c; 10 lbs. \$6.50; 100 lbs. \$60.00.

Harris' Model Parsnips

PEANUTS

EARLY SPANISH. The Earliest Variety.....lb. 35c; 5 lbs. \$1.50; 10 lbs. \$2.50

*Pfeffer (Ger.)***PEPPERS***Peperoni (It.)**An ounce of seed will produce about 1000 plants.***Harris' Northern Grown Pepper Seed**

For a number of years we have made a specialty of growing pepper seed on our own farms here in the North. Almost all pepper seed is grown in warmer climates and ordinary peppers would not ripen enough fruit to pay us to grow seed here so we have developed a number of *special early varieties* that will mature and ripen an *abundance* of fruit even in our short seasons. Our newest introduction "Harris' Wonder" is described below.

Several of our varieties have become so popular among market gardeners that much inferior Southern grown seed is being offered. Be sure to get Northern grown seed that will produce lots of fruit early in the season while prices are highest. Get your seed direct from the originators. We do not sell to dealers.

Harris' Wonder**A New Early Prolific California Wonder Type**

A number of years ago we set out to produce a pepper having the thick flesh and smooth skin of California Wonder and also some of the earliness and heavy yield of Harris' Early Giant. This was to be accomplished by a definite breeding program for this definite object. Many crosses were made here on our own farm between these two varieties after which many generations were grown, selected and rejected always following the fixed ideal which we had in mind.

We believe we have approached our goal, and the pepper we offer to our customers under the name of Harris' Wonder combines those characters which growers have so long wanted, i.e., smoothness, thick meat, high yield and sufficient earliness to ripen fruit in the North before frost.

Those who saw our seed crop this year actually marvelled that a single variety could have all of these fine characters. Of

necessity our crop is small this year and we cannot offer more than ounces, but we urge all our customers to try Harris' Wonder. You will find it a revelation in what a pepper can do. See prices on next page.

Harris' Early Giant—The Earliest Large Pepper

This large early pepper which we introduced a number of years ago is the standard large early variety for market gardeners.

Many inferior southern grown stocks are offered, but you will find our original Northern grown strain produces better crops of large early fruit than the inferior stocks grown farther south.

The seed we offer is all grown under our careful control on and in the vicinity of our own farm and without exception from our own carefully bred stock seed.

The true Harris' Early Giant will produce a large number of peppers about 4½ in. long and 4 in. across, and is only a week later than Harris' Earliest, the earliest pepper grown. See prices on next page.

Harris' Improved SQUASH Pepper—Very Early and Heavy Yielder

This pepper replaces the old type known as Squash, Cheese, Sunnybrook, etc.

It is so early and prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen. This early character and high yield make it a profitable kind to grow even here in the north.

The fruit is the true "Squash" shape, with very thick flesh which is mild and sweet. See prices on next page.

Harris' Earliest—The Earliest Sweet Pepper

In our trials we see practically every new pepper that is brought out, but Harris' Earliest is still the earliest one we know. It is an invaluable variety in the extreme northern parts of the country where other peppers will not ripen.

We have grown and bred seed of this variety here on our farm for nearly two decades, constantly improving it for size, earliness and yield.

See prices on next page.

Harris' Wonder Peppers

(This is a standard half bushel basket)

Harris' "King of the North" Extremely Large, Early and Prolific

Since we introduced this pepper in 1934 it has had a remarkable increase in popularity. There is no variety which will produce as large fruit in such quantities here in the North.

The immense size, earliness and heavy yield make Harris' "King of the North" a variety that gives enormous yields of fine fruit even where the seasons are short. The plants are medium size, branching and literally covered with fruit. The size and shape of the peppers is well shown in the photograph to the right.

The flesh is firm, mild and sweet. If you have not done so we urge you to try these peppers this year. See prices below.

Harris' "King of the North" Peppers

Hot Portugal—(Large)

If you want lots of large, long *hot* peppers, grow this kind. The fruit is long, pointed and quite smooth for a pepper of this type. The peppers average six inches or over in length and are borne profusely on the sturdy plant. This pepper is bright red when ripe and in addition to its large size, is just as hot as the old Giant Cayenne.

Seed grown here on Moreton Farm. See prices below.

	Oz.	¼ lb.	lb.
CALIFORNIA WONDER. Large, thick flesh	\$.50	\$1.50	\$5.00
A fine sweet pepper with very thick flesh. The fruit is large, smooth and very heavy. Medium early and yields well, a valuable variety.

*Radies (Ger.)***RADISH***Ravanelli (It.)* *$\frac{1}{4}$ lb. of seed will sow about 300 ft. of row.*

Note—To growers who are interested we will be glad to furnish germination figures of our radish seed before they buy their seed.

Cavalier (NEW) Short Top Scarlet Globe

We offer this new variety especially to growers who want a true Scarlet Globe radish with smaller tops. It is very finely bred stock of true olive shaped radishes with small tap roots and of a brilliant scarlet color which makes them extremely attractive when bunched. In our numerous trials both in greenhouses and outdoors this variety has shown ability to stand a long time without becoming pithy. The tops are about an inch shorter than our Early Scarlet Globe Special Strain, making this a most excellent kind to grow on muck and in the greenhouse.

We recommend this new radish very highly. See prices on next page.

Early Scarlet Globe Radish Special Strain

We can confidently state that our stock of this popular radish is the finest both for outdoor and greenhouse growing of any strain of regular Early Scarlet Globe on the market today.

The radishes are the true olive shape, and of an attractive bright red color. They are early and very uniform in maturity and have tops which do not grow too large.

The seed is vigorous and of high vitality which is of utmost importance to the greenhouse grower. See prices on opposite page.

Comet (NEW)**Round, Bright Scarlet—Long Standing**

In our trials during the past two summers and also in our greenhouse trials it stood longer than any other kind, even attaining a growth of 2" in diameter without becoming soft. It is a very attractive radish, nearly all round, with fine tap roots, brilliant scarlet in color and medium tops. Growers who desire a round radish both for outdoors and forcing will do well to try this new kind. See prices on next page.

Cavalier Radish. *Note the short top.*

RADISHES continued on next page.

RADISHES—Continued

Icicle Radish (White)

Short-Topped Strain—Also Called Pearl Forcing

To us this stock is as near the ideal of Icicle Radish, both for forcing and outdoors, as we have ever seen. It can also be grown successfully on muck. The radishes are uniformly smooth and clear white. The tops do not grow too long in the greenhouses or frames, but are plenty long for bunching when grown outdoors. See prices below.

Rhubarber (Ger.)

RHUBARB or PIE PLANT

Rabarbaro (It.)

One ounce of seed will sow about 100 feet of row.

Myatt's Linnaeus. Early, large stalks..... ¼ lb. 45c; 1 lb. \$1.50; 10 lbs. \$14.00

MacDonald Rhubarb Roots

We are pleased to offer again this year fine roots of the famous MacDonald Rhubarb. This rhubarb is the most distinct improvement made in rhubarb in many years.

The plant is vigorous and strong, producing large tender stalks which are deep crimson in color. They make a very attractive bunch and when cooked the sauce is a beautiful deep pink color and of excellent flavor. Market growers who have been fortunate enough to get these roots in the past find this rhubarb sells readily at the highest prices.

Strong root divisions. Doz. \$4.00 transportation paid. Not prepaid: 100, \$20.00.

See page 34 for other Rhubarb Roots.

This is the variety preferred by most growers. Seed of our own growing.

Haferwurzel (Ger.)

SALSIFY or Vegetable Oyster

Sassefrica (It.)

One ounce of seed will sow about 100 ft. of row.

MAMMOTH SANDWICH ISLAND..... ¼ lb. 50c; 1 lb. \$1.70; 10 lbs. \$16.00
The largest and best variety.

SAGE

Salbei (Ger.)

One ounce of seed will sow about 200 feet of row.

Salvia (It.)

BROAD-LEAVED..... Oz. 30c; ¼ lb. 90c; 1 lb. \$3.00

Spinat (Ger.)

SPINACH

Spinace (It.)

Sow about 20 lbs. of seed per acre in rows.

NOTE—At the prices here quoted spinach seed cannot be sent prepaid. Purchaser pays transportation on spinach seed except as follows: If your order for vegetable seeds including spinach amounts to \$20.00 or more we will prepay the freight charges.

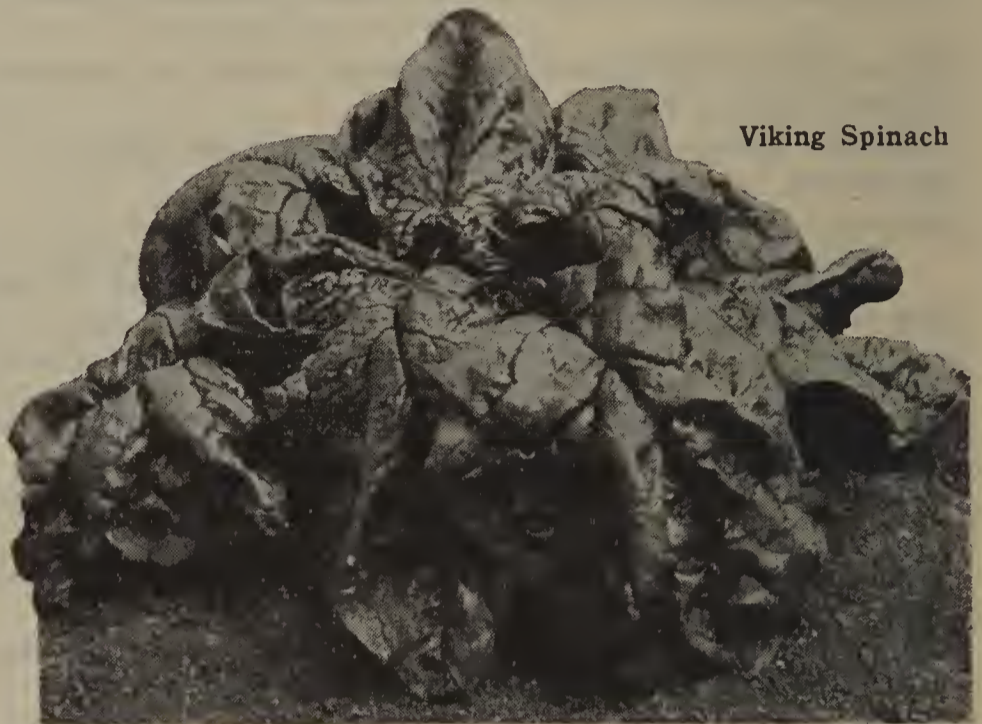

We shall be glad to quote special prices to growers who use larger amounts of spinach. Please write. 25 lbs. of any one variety will be furnished at the 100 lb. rate.

Viking (NEW) Early—Large Leaved— Long Standing

This new spinach is a most excellent variety for spring sowing. It closely resembles Nobel Giant Leaf in habit of growth, but the leaves are darker and more blistered.

Viking grows very rapidly getting to cutting size early, and will continue to grow and get very large without going to seed for a long time.

The large leaves are dark green, somewhat pointed and quite well crumpled and will produce many bushels to the acre. It is a very attractive spinach and sells well in markets. See prices below.

Viking Spinach

Special Summer Savoy—Dark Green Long Standing

We recommend this remarkably fine strain of Long Standing Savoy not only for early spring sowing but for growers who wish to cut during July and August as it is an exceptionally long standing stock. In appearance Special Summer Savoy resembles our Long Standing Bloomsdale, except that it has a slightly smaller frame; is possibly a trifle darker green. The leaves are more crumpled or savoyed if possible and the yield per acre is very large. We recommend this valuable variety to spinach growers who demand only the finest. See prices below.

Blight Resistant Savoy—For Fall Sowing

True Virginia Strain

We offer the true Virginia strain of this spinach which is almost 100% resistant to blight. In addition the quality has been greatly improved so that the plants are uniformly well "crumpled or blistered" and the color a beautiful dark green.

This strain can be depended on to produce large crops of fine spinach in the fall where other varieties will blight and fail. We do not recommend this for spring sowing in places where blight does not ordinarily affect spinach in the spring as it does not stand as well as most other kinds, although our strain will stand three to four days longer than many strains of Blight Resistant Savoy which are now sold. See prices below.

	NOT PREPAID*			
	5 lb.	10 lb.	100 lb.	500 lb.
BLIGHT RESISTANT SAVOY-LEAF. For Fall Crop. See above.	\$1.10	\$2.00	\$18.00	\$85.00
KING OF DENMARK. Longest Standing.....	1.10	2.00	18.00	85.00
This spinach will stand longer than any other kind. The leaves are very dark green, quite thick and have small stems. On this account and because of the heavy yield this is one of the best varieties for canning. True stock.				
LONG STANDING BLOOMSDALE. For Spring Sowing.....	1.10	2.00	18.00	85.00
We have an exceptionally well bred strain. Large deep green, well crumpled leaves which produce enormous crops and stand a long time without bolting to seed. We recommend this stock.				
OLD DOMINION. (New). For Fall Crop.....	1.20	2.20	20.00	95.00
This spinach is becoming very popular for spring sowing in places where blight affects spinach and also for early fall sowing as it is blight resistant and will stand longer without going to seed than Blight Resistant Savoy. The leaves are large, dark green, well blistered or "Savoyed" producing large crops which stand up well when shipped.				
NEW ZEALAND. Not a true spinach. Valuable for summer....	2.25	4.25	40.00	195.00
NOBEL GIANT-LEAVED.	1.10	2.00	18.00	85.00
Large, early, medium dark nearly smooth leaves. Grows rapidly and is ready to cut early. Remarkably long standing. An excellent and profitable kind for spring sowing.				
PRINCESS JULIANA.....	1.20	2.20	20.00	95.00
SPECIAL SUMMER SAVOY. (New). See above.....	1.10	2.00	18.00	85.00
VIKING. (New). See above.....	1.20	2.20	20.00	95.00

*We prepay freight on spinach if your order for vegetable seeds including spinach amounts to \$20.00 or more.

Kuerbiss (Ger.)

SQUASH

Zucca (It.)

Warren Squash—Improved Essex Hybrid (*New England Strain*)

This fine old New England squash is becoming more popular every year. Many sections which formerly would not use "orange" squash are becoming aware of the fine quality of this kind, and we are selling more seed each year.

We have an exceptionally good stock of this variety all grown and selected on our own farm. The squash are early, medium size, very uniform in shape and heavily warted. The vines produce large crops. We have bred this strain with a well formed "button." The flesh is fine grained, extra thick and the color a beautiful deep reddish orange. Seed of our own growing: See prices below.

Harvesting a seed crop of Warren Squash on our farm

WINTER SQUASH

1/4 lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

	Oz.	1/4 lb.	lb.	10 lb.
BLUE HUBBARD. Selected Strain	\$.25	\$.70	\$2.25	\$20.00
Large; attractive blue gray color. Extra fine quality. Seed of our own growing, and the purest stock we have ever seen. Crop this year very short.				
Boston Marrow10	.25	.80	7.50
Popular fall squash, deep orange color. Used principally for canning and pies.				
DELICIOUS15	.40	1.35	12.50
Smaller than Hubbard, but of finer quality, deeper green shell with orange flesh, dry and sweet.

TOMATOES

Pomo d'oro (It.)

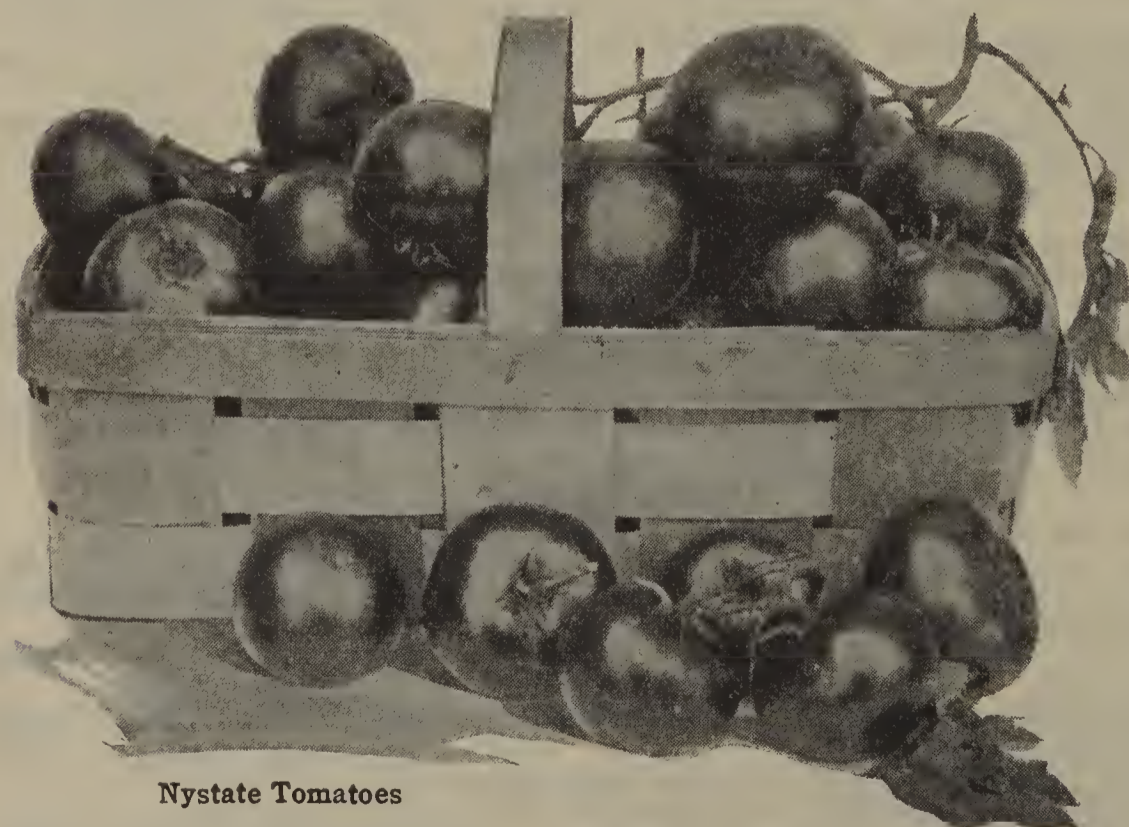

An ounce of seed will produce about 2000 plants.

Harris' New York State Certified Tomato Seed

For years we have made a specialty of growing tomato seed of the best possible quality here in the North on Moreton Farm, from carefully selected pedigree stocks. Now for the second year we are pleased to offer our customers Certified Tomato Seed.

All our tomato seed crops which we grew this year were entered for certification. The fields were carefully inspected by experts from Cornell University on behalf of the New York State Seed Improvement Association, which is the official seed certifying agency of the State, and have fully passed their high requirements for purity and freedom from disease.

Our careful methods and growing tomatoes for seed only, the way we do, costs us more but we feel that we should do everything in our power to furnish only the best possible seed that can be obtained. The results our customers get make it well worth while. A few ounces of seed will plant a large plot of tomatoes. Insist on getting only the best regardless of price. It will repay you many times over.

Nystate Tomatoes

**NYSTATE (New)
Early, Thick Meated,
Heavy Cropper**

Growers and canners here in Western New York who had this new variety last year were most favorably impressed with its fine qualities.

NYSTATE was originated at and introduced by the New York State Agriculture Experiment Station, primarily as a fine canning variety for here in the North. We believe it also has great possibilities as a market tomato.

The tomatoes are of a slightly flattened globe shape, very smooth, resistant to cracking and an

excellent deep red color which extends all through the fruit. The flesh is solid and of outstanding fine flavor, being very mild and sweet. NYSTATE ripens about the same time as John Baer and is an exceptionally heavy producer. We think growers will do well to give this new kind a trial.

Certified Seed of our own growing. See prices on page 32.

Pritchard's Scarlet Topper Also Called "Pritchard"

We think this is one of the best tomatoes ever introduced. It has become a very popular and profitable market variety on account of its beautiful appearance, fine quality and heavy yield. Our stock seed has been selected from the original seed sent us a number of years ago by the United States Department of Agriculture and we are growing the seed here in the North making carefully checked selections in order to maintain the size, vigor and earliness of this variety.

The fruit is deep globe in shape and medium early, ripening right after Bonny Best. The flesh is very solid with few seed cavities, and is quite free from cracking. The brilliant red color goes right up to the stem. The quality is extra fine, being mild and without acidity.

The plants are robust but not of rank growth and bear heavily.

Certified seed of our own growing. See prices on next page.

Scarlet Topper Tomato

New Rutgers Tomato An Extra Large and Solid Main Crop Sort

This new tomato was originated by Dr. Schermerhorn of the New Jersey Agriculture Experiment Station at Rutgers. From our observation of the crops which we have grown and the trials we have seen, we are sure that this variety has a definite place in the list of finer tomatoes.

The outstanding features of the Rutgers tomato are the large size and solid structure of the fruit, deep globe shape, fine flavor and deep red color all over, together with a heavy set of fruit which makes for high yield. It is not an early variety—but ripens about the same time as Marglobe. In a normal season Rutgers will produce an abundance of ripe fruit before the vines are killed by frost. The vines are strong and sturdy, with plenty of leaves to prevent the fruit being scalded by the sun. We offer **Certified Seed** of our own growing. See prices on next page.

Earliana—Harris' Extra Early Northern Grown Strain

We are sure that all our customers who have raised our special strain of Earliana tomato will agree with us that it is the *smoothest* and *best colored* stock of Earliana obtainable. There are other tomatoes offered under various names which are said to be earlier than Earliana, but we have found none to be any earlier and most of them are irregular in shape and not so well colored.

Certified Seed of our own growing. See prices on next page.

Marglobe Tomato—Blight Resistant

We have grown this variety on our own farm since it was first released by the U. S. Department of Agriculture and have made careful selections each year until now we have a strain which is unsurpassed in yield, uniformity of color and size of fruit.

The fruit is large, globe shaped, perfectly smooth, deep red, very solid and firm. The vines are vigorous and healthy and do not blight. Because of this fact the vines remain green until frost, so the late fruit is as good as the first to ripen.

Certified Seed of our own growing. See prices on next page.

Harris' Early STONE Tomato

Produces large deep red fruit

Those who saw our seed crop this year were astonished at the enormous amount of fruit on the vines. By raising the seed many years in this northern latitude and making selections for earliness, we have obtained a strain that ripens *almost as early as Bonny Best and John Baer* and at the same time has retained all the good qualities of the old Stone.

The fruit is smooth, deep red throughout, solid, firm and very sweet. The yield is high and market gardeners with a discriminating trade will find this a very profitable tomato to raise.

Certified Seed of our own growing. See prices on next page.

Harris' Tomato Plants

We have a reputation for producing fine, sturdy, true to name tomato plants. They can be furnished either ready to set out in the open ground, or, if preferred, small plants which can be grown in frames for a few weeks before setting out. *See page 35 for prices and varieties.*

TOMATOES continued on next page.

Improved John Baer.
A Cluster from our Seed Field.

John Baer Improved Strain

This improved strain of the John Baer tomato will produce larger fruit and more tons of fine fruit to the acre than any stock we have ever seen.

The fruit is unusually large for this variety and is very smooth. It is deep red throughout and colors right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes, and recommend it most highly both for market and canning.

Certified Seed of our own growing. See prices below.

Comet Tomato For Greenhouse and Trellis Growing

We are pleased to offer this fine strain of **Comet Tomato**. The seed is saved only from the best fruit and will be found superior for both greenhouse use and growing outside on trellises.

Pkt. 20c; 1/8 oz. 50c; 1/2 oz. \$1.65; oz. \$3.00.

We know of no finer strain. Grown on our own farm from our own pedigree stock seed. Produces smooth round perfect fruit of finest color.			
BREAK O'DAY. (Certified Seed)50	1.35	4.50
The fruit is very early, globe shaped, smooth and solid. This tomato is valuable where plants are staked and early fruit of high quality is required.			
CANADIAN. Extra Early. (Certified Seed)50	1.50	5.00
A robust Earliana type tomato, practically as early as our Special Strain. Fruit deep red color and large. Seed of our own growing.			
COMET. Forcing Tomato. See above	<i>See prices above.</i>		
Dwarf Champion50	1.30	4.25
Early, pink, medium size, dwarf stocky plant.			
Dwarf Stone50	1.35	4.50
Plants like Dwarf Champion with fruit like Stone.			
EARLIANA. Harris' Extra Early Strain. (Certified Seed). See page 31.50	1.50	5.00
EARLY DETROIT. The Best Early Pink Tomato50	1.30	4.25
A pink variety with smooth, evenly colored fruit of good size. A very fine pink tomato.			
GLOBE. Special Selected (Pink) 5 lbs. \$22.50	.50	1.50	5.00
Seed of our own growing and as fine a stock of this popular kind as we have ever seen.			
GOLDEN QUEEN50	1.45	4.75
Large, smooth yellow fruit.			
HARRIS' EARLY STONE. (Certified). See page 31 5 lbs. \$18.50	.50	1.30	4.25
HARRIS' SUCCESS 5 lbs. \$18.50	.50	1.30	4.25
Yields enormous crops of smooth solid fine flavor fruit. Nearly as early as John Baer			
ITALIAN RED PEAR. Pomo d'oro a Pero. (Certified) Pkt. 10c	.50	1.50	5.00
Three to four times as large as ordinary Red Pear. Clusters of 4-7 fruit with pleasant distinct flavor. Used largely for Tomato "paste" and canning "Italian Style."			
JOHN BAER. Harris' Improved Strain. (Certified Seed) 5 lbs. \$20.00	.50	1.35	4.50
See above.			
MARGLOBE. Blight Resistant. (Certified Seed). See page 31 5 lbs. \$22.50	.50	1.50	5.00
NYSTATE (NEW). (Certified Seed) See page 3075	2.30	8.00
PONDEROSA. Largest Pink Kind55	1.60	5.50
Magnificent, heavy, solid fruit, often weighing 2 lbs. or more; light pink; medium late; does not color very well and is somewhat irregular.			
PRITCHARD'S SCARLET TOPPER. (Certified). See page 31 . 5lbs. \$22.50	.50	1.50	5.00
RUTGERS (New). (Certified Seed). See page 3175	2.30	8.00

- Ground Cherry (Husk)

Price: Any of above small fruited varieties—1/2 oz. 30c; oz. 50c; 1/4 lb. \$1.50.

SPECIAL OFFER: Any four packets of the above small fruited varieties, 25c.

Any four 1/2 ounces of the above small fruited varieties, \$1.00.

TURNIPS

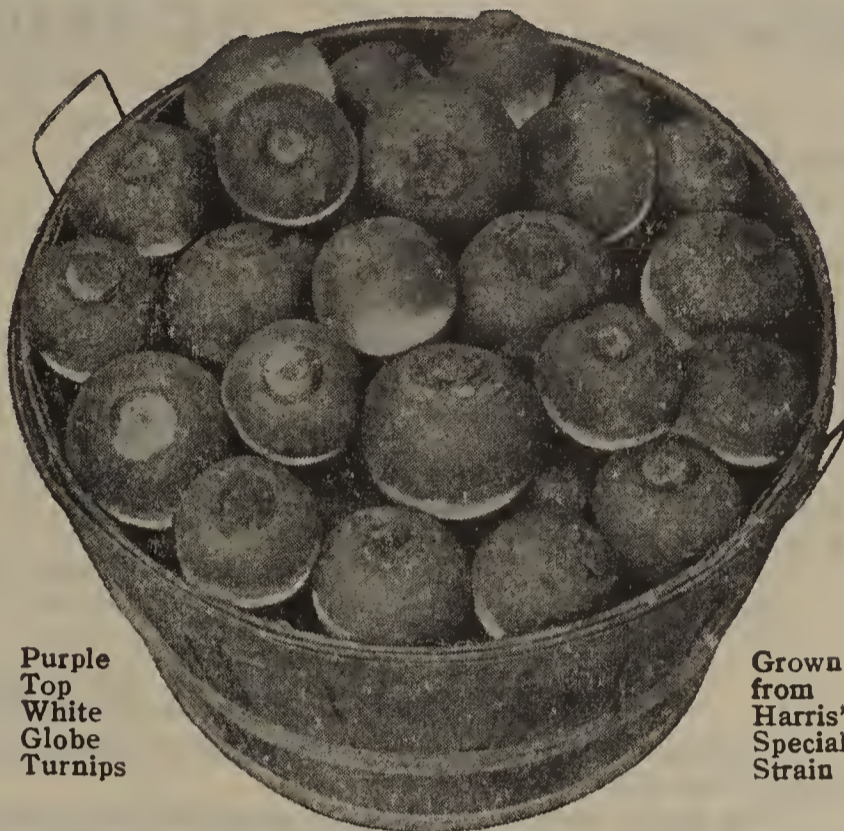

Weisse Rube (Ger.) *Navone* (It.)

It requires 1 to 1½ lbs. of seed per acre in drills, or 2 to 2½ lbs. broadcast.

Purple Top White Globe Special Strain

Our special stock of Purple Top White Globe turnip continues to produce the most uniformly smooth handsome roots of any stock we have ever seen. The color is a smooth snowy white with bright purple tops. Such turnips make a much more attractive product and always sell better than just ordinary turnips. See price below.

"Have used your seeds for over 25 years and find them more satisfactory than others."
Elmer Stanton, Waterloo, N. Y. Mar. 28, 1936.

Purple Top White Globe Turnips

Grown from Harris' Special Strain

	¼ lb.	lb.	10 lb.
EARLY PURPLE TOP MILAN The earliest purple top turnip, very fine.	\$.30	\$.85	\$8.00
EARLY WHITE MILAN. The Earliest Turnip Very early, flat white turnip.	.30	.85	8.00
GOLDEN BALL. The Smoothest Yellow Turnip Round, smooth yellow. A fine turnip.	.25	.75	7.00
Purple Top Strap-leaf White, purple top, flat, very rapid grower.	.20	.60	5.50
PURPLE TOP WHITE GLOBE. Special Strain. See above25	.70	6.50
SHOGOIN. The Best Foliage Variety The best turnip for greens, very much superior to Seven Top. The turnips are white, flat and of fine quality. The tops are light green of good quality and grow in clusters.	.25	.80	7.50
Snowball Pure white, round as a ball; early, with small tops.	.25	.70	6.50
White Egg Pure white, globe shape.	.25	.70	6.50

Kohlrübe (Ger.) **RUTA BAGAS or Swede Turnips** *Cavolo navone* (It.)

Improved Long Island Special Neckless Strain

In our trial grounds this year we compared our strain with the finest Canadian varieties. All who saw the trials agreed there was no comparison and our stock was the best yellow Purple Top Ruta Baga they had ever seen. The ruta bagas are large, producing enormous crops and very handsome. They are globe shape and much smoother than the usual strains. *There are practically no necks.* Flesh is yellow and of fine quality. These ruta bagas command the best prices wherever sold.
¼ lb. 30c; lb. 85c; 10 lbs. \$8.00.

Harris' Improved Long Island Ruta Bagas

This is a standard bushel basket

Macomber

Finest Quality. White Flesh

This is the finest quality ruta бага we know. It is exceptionally mild and sweet. The roots are nearly round, smooth, white with green tops. The flesh is white and

very fine grained. Growers to a discriminating trade quickly work up a fine trade with this outstanding variety. ¼ lb. 60c; lb. \$2.00; 10 lbs. \$19.00.

Wasser-Melone (Ger.)

WATERMELON

Cocomero d'acqua (It.)

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

The varieties we have here listed are all suitable for growing in the North, as they are early and in our climate will produce ripe fruit before frost, from seed sown in the open ground. See our general catalogue for full descriptions.

American Branching Aster, Flesh Pink

Crego Aster, Flesh Pink

Harris' Flower Seeds

If you are a grower of Cut-Flowers, Bedding Plants, or Hardy Perennial Plants, you will find Harris' Flower Seeds the most profitable to sow. Every lot of seed has been carefully tested for germination and we *know* they are good.

Notice—Complete descriptions of all the varieties are given in our general catalogue, a copy of which will be sent to you in January. If you do not receive a copy, please notify us.

Annual Flowers, pages 38 to 45. Hardy Perennial Flowers, pages 46 and 47.

Harris' New Wilt-Resistant Asters

Plant these New Wilt-Resistant Asters and be free of the "wilt" or "stem-rot," which is the most destructive Aster disease known. The varieties we offer have all been carefully selected for their value to the cut-flower grower, and the seed is all fresh new-crop seed of high germination.

Peerless Pink Aster

W1066—This is still the most profitable light pink Aster. Large double flowers on vigorous branching plants. Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00.

Heart of France Aster

W1078—The most popular "red" Aster and still a favorite for the gardens. There is no other Aster to take its place. Lg. Pkt. 35c; ¼ Oz. 80c; Oz. \$3.00.

Queen of the Market Asters

The standard extra early and one which has been profitably grown for years. Start indoors or frames.

Aster Mixtures

For Plant Trade

Harris' Best Mixture

W1500—Harris' Best Mixture. A mixture of the eight Wilt-Resistant Asters we especially recommend in our general catalog. Particularly good for plant trade or garden. Lg. Pkt. 15c; ¼ Oz. 45c; Oz. \$1.50

Sunshine Asters

W1010—New California Sunshine Mixed Colors. A new type of upright growing Aster with large single flowers, many of them with quilled centers. You should include these in your list of plants to sell. Lg. Pkt. 35c; ¼ Oz. 80c; Oz. \$3.00.

All Kinds Mixed

W1000—Choice Mixture of Tall Varieties. This is an especially made mixture of taller growing kinds including Royal, American Branching, Crego, and Early American Beauty. It is well balanced as to colors and season, and ideal for either plant trade or cut flowers. Lg. Pkt. 10c; ¼ Oz. 20c; Oz. 60c.

New Daisy Asters

W1830—California Giant Single, Mixed Colors. Immense single flowers with long graceful petals. Plants are the vigorous California Giant type and are very resistant to disease. Lg. Pkt. 15c; ¼ Oz. 40c; Oz. \$1.25.

¼ lbs. sold at 3 times the ounce price.

Pansies

New Swiss Giants

W3705—Magnificent Mixture. No description can do justice to this new strain of Pansies. The enormous blooms measure three inches or more in diameter and the colors are unusual. Lg. Pkt. 40c; ⅛ Oz. \$1.00; ¼ Oz. \$1.75; Oz. \$6.00.

W3704—Dwarf Swiss, Choice Mixture (New). More dwarf compact plants with the same immense flowers as the Magnificent Mixture. Lg. Pkt. 60c; ⅛ Oz. \$1.75; ¼ Oz. \$3.00; Oz. \$10.00.

W3738—New Blue Swiss. A solid blue with darker blue blotch. Lg. Pkt. 50c; ⅛ Oz. \$1.25; ¼ Oz. \$2.25; Oz. \$8.00.

W3739—New Red Swiss. Same type as the blue but a mahogany red color. Lg. Pkt. 50c; ⅛ Oz. \$1.25; ¼ Oz. \$2.25; Oz. \$8.00.

W3736—New Yellow Swiss. Another of the type but a yellow color with black blotches. Lg. Pkt. 50c; ⅛ Oz. \$1.25; ¼ Oz. \$2.25; Oz. \$8.00.

Maple Leaf Giants

W3703—Mixed Colors. A new variety with the largest flowers of them all. Lg. Pkt. 60c; ⅛ Oz. \$1.50; ¼ Oz. \$2.50; Oz. \$9.00.

Harris' Special Mixture

W3700—We make a special point of this medium priced early flowering mixture. The flowers are large, with bright colors predominating. Lg. Pkt. 35c; ⅛ Oz. 50c; ¼ Oz. 85c; Oz. \$3.00.

Giant Trimardeau Pansies

W3701—Mixed Colors. A high grade mixture of choicest colors of large-flowering Pansies. Lg. Pkt. 15c; ¼ Oz. 30c; Oz. \$1.00; ¼ Lb. \$3.50.

Giant Ruffled Pansies

W3702—The flowers of this mixture have fluted or ruffled petals which add much to the beauty of the wonderfully rich colors. Lg. Pkt. 35c; ⅛ Oz. 85c; ¼ Oz. \$1.50; Oz. \$5.00.

Swiss Giant Pansies

Petunias

New All-Double Varieties

All-Double Dwarf Fringed

W3790—Victorious Mixture. 100% double fringed flowers in an assortment of colors on uniformly dwarf compact plants. Extremely free flowering. 100 seeds 40c; 500 seeds \$1.25; 1000 seeds \$2.00; $\frac{1}{4}$ Oz. (about 5000 seeds) \$6.00; $\frac{1}{8}$ Oz. \$11.00.

W3793—Carmine King. Large fringed beautiful bright pink flowers 100% double on uniformly dwarf plants. The best variety of double Petunias. 100 seeds 50c; 500 seeds \$1.75; 1000 seeds \$3.00; $\frac{1}{4}$ Oz. \$8.00; $\frac{1}{8}$ Oz. \$15.00.

Ruffled Giant Petunias

W3802—Harris' Paramount Ruffled Giants. A beautiful range of brightest colors. Immense deep throated well ruffled flowers on dwarf compact plants. This is a superior strain of our own growing especially selected for florists sales. 200 seeds 30c; 500 seeds 60c; 1000 seeds \$1.00; $\frac{1}{4}$ Oz. (about 2500 seeds) \$2.00; $\frac{1}{8}$ Oz. \$3.50; $\frac{1}{4}$ Oz. \$12.00.

W3801—Ruffled Giants of California. Not as dwarf in habit, but bearing ruffled flowers of the best possible color range in Giant Petunias. 200 seeds 20c; 500 seeds 30c; 1000 seeds 50c; $\frac{1}{4}$ Oz. \$1.00; $\frac{1}{8}$ Oz. \$1.75; $\frac{1}{4}$ Oz. \$5.50; $\frac{1}{2}$ Oz. \$10.00.

BULBS. No. 1 mixture of the different colors. \$6.50 per 100; \$60.00 per 1000.

SEED. An exceptionally fine mixture of all types and colors. 50 seeds, 25c; ¼ Oz., \$3.50; Oz., \$12.00.

See description in our General Catalog, page 81.

INSECTICIDES, ETC.

Insecticides listed below are sent at purchasers expense except where noted. *Prices subject to change.* Write for special prices in large quantities.

ARSENATE OF LEAD. Standard poison to use against worms and insects that eat leaves of plants, fruits, etc.

Powder: $\frac{1}{2}$ lb. 25c; 1 lb. package 40c; transportation paid. Not paid: 4 lb. bag 95c; 6 bags (24 lbs.) at 15c per lb. Write for prices on larger quantities.

"BLACK LEAF 40." Standard nicotine sulphate insecticide. Effective against aphids, etc. Use also to delouse poultry by simply painting the roosts. Highly concentrated. Economical.

1 oz. 35c; 5 oz. \$1.00; 1 lb. (bottle) \$2.25; 2 lb. (tin) \$3.25 transportation paid. Not paid: 5 lbs. \$5.85; 10 lbs. \$10.60 each. Prices subject to change. *Write for prices on larger sizes.*

BORDEAUX MIXTURE. Used for spraying plants and trees.

$\frac{1}{2}$ lb. 25c; 1 lb. 40c; transportation paid. Not paid: 4 lb. bag 95c; 6 bags (24 lbs.) at 15c per lb. Write for prices on larger quantities.

CALOMEL. (Fine Powder). Used successfully to combat cabbage maggots. See your County Agent.

1 lb. \$1.90; 5 lbs. or more at \$1.85 per lb. transportation paid. Prices subject to change.

CORROSIVE SUBLIMATE. (Bichloride of Mercury.) This powerful disinfectant is used to treat potatoes and in the control of cabbage maggots.

$\frac{1}{4}$ lb. 55c; lb. \$1.65; 5 lbs. or more at \$1.55 per lb. transportation paid.

NEW EVERGREEN. One of the most effective non-poisonous insecticides. Contains soap spreader. Simply mix with water.

1 oz. 35c; 6 oz. \$1.00; 16 oz. \$2.00 transportation paid. Not paid: 1 gal. \$9.50; 5 gal. \$42.50.

FORMALDEHYDE, (40 per cent). A valuable disinfectant for destroying germs that cause diseases in plants.

1 lb. cans 40c; 6 cans \$2.15 postpaid; also 100 lb. Carboys (about 12 gal.) Write for Special Price.

SEMESAN. We have found this material most reliable to prevent damping off of seedlings. Used either as liquid for treating soil or dust disinfected for seeds.

2 oz. 35c; 1 lb. \$2.25 transportation paid. Not paid: 5 lbs. \$9.90; 25 lbs. \$45.50.

SEMESAN Bel. For seed potatoes. One pound New Improved Semesan Bel will treat 50 to 60 bu. of cut potatoes. For control of Rhizoctonia and seed-born Scab.

4 oz. 45c; 1 lb. \$1.50 transportation paid. Not paid: 5 lbs. \$6.75; 25 lbs. \$31.00.

SEMESAN Jr. A cheap and effective dry dust disinfectant for both field or sweet corn. Prevents corn from rotting in the ground.

4 oz. 35c; 1 lb. \$1.00 transportation paid. Not paid: 5 lbs. \$4.75.

CERESAN. New Improved. Effective dust for control of smut on wheat, oats and barley. $\frac{1}{2}$ oz. treats 1 bu. of seed.

1 lb. 70c transportation paid. Not paid: 5 lbs. \$3.00.

DUBAY No. 738. Has proved effective in controlling bottom rot of lettuce. Use 25 lbs. per acre.

5 lbs. \$3.00; 25 lbs. \$12.50. Purchaser pays transportation.

FERTILIZERS

VIGORO

Specialty prepared plant food

The all around value of this complete fertilizer has made it popular with greenhouse men, rose growers, etc. Contains many essential plant food elements not

found in ordinary mixed fertilizers.

100 lbs. \$4.00; Purchaser pays transportation.

Write for prices on larger quantities.

PULVERIZED SHEEP MANURE. This is high grade material. There is no straw or other rubbish in it.

100 lb. bag. \$ 2.75

1000 lbs. (10 bags) 18.00

1 ton. 34.00

Purchaser pays transportation. *Prices subject to change.* Write for price on larger quantities.

Lang's Hand Weeder

This is one of the most useful tools for hand weeding made. A boy with one of these weeders can do twice as much work in a day as he could without it.

Price 25c each; 3 for 65c; 6 for \$1.20 postpaid.

Protect Your Seed Corn From Crows

If you are troubled with crows and other birds pulling up your seed corn, treat it with **STANLEY'S CROW REPELLENT.** We use it on our own farm for corn, melons and cucumbers. Will not harm the seed or clog the planter.

Half pt. can (enough for 1 bu.) . . . \$.60

Pint can (enough for 2 bu.) 1.00

Quart can (enough for 4 bu.) 1.75

"NICO-FUME." Powder Pressure-Fumigator (New).

This most effective and economical fumigator for greenhouses is now burned under pressure in special cans in which it is packed. Easy to use and gives more effective control of greenhouse insects at no increase in price. Complete directions on label.

$\frac{1}{2}$ lb. cans 45c each; 6 for \$2.40; 12 for \$4.20; 1 lb. cans 75c each; 6 for \$3.75; 12 for \$7.00 transportation paid.

PYROTE. Non-poison Pyrethrum-Rotenone spray. No spreader needed. Effective against both sucking and chewing insects.

1 oz. 35c; 6 oz. \$1.00; pint \$2.00; quart \$3.50; gallon \$11.00; 5 gal. \$47.50. Transportation paid.

RED COPPER OXIDE. A very effective and cheap disinfectant for seed. Especially effective for spinach and beets. Experiment stations have found it will actually increase stands even where seed of high germination is used.

4 oz. 35c; 1 lb. can 90c transportation paid. Not paid: 5 lbs. \$4.00. Write for prices on large quantities.

RED ARROW. A highly concentrated Pyrethrum spray. Non-poisonous to human and animals.

1 oz. 35c; 4 oz. \$1.00; pt. \$2.50; qt. \$4.00 transportation paid. Not paid: 1 gal. \$12.00 each; case of 6 1-gal. \$60.00.

SNAROL. Sure death to Cut worms, Sow bugs, Slugs, Snails, etc. Simply broadcast on ground. Will not deteriorate from rain or sprinkling.

$1\frac{1}{2}$ lb. 35c transportation paid. Not paid: 4 lbs. 85c; 15 lbs. \$3.00; 50 lbs. \$8.00. Write for prices on larger quantities.

SULROTE. This new dust combines Sulphur and Rotenone in a most effective non-poisonous dust, for control of lice and worms on cauliflower, cabbage, etc., Mexican beetles, cucumber beetles and other pests.

1 lb. can 40c each transportation paid. 5 lb. bags \$1.25; 25 lbs. at 18c per lb.; purchaser pays transportation. Write for prices on larger quantities.

TOBACCO DUST. Used extensively for dusting plants. For fumigating greenhouses the tobacco dust we sell is most excellent. Five pounds will fumigate a house 20 x 100 feet.

2 lbs. 35c transportation paid. Not paid: 10 lbs. 50c; 100 lbs. \$4.00.

PEAT MOSS

We consider Peat Moss to be one of the most valuable materials for conditioning soil which we have yet found.

Peat Moss is remarkable in its ability to absorb and retain moisture.

We use a large amount of Peat Moss in our greenhouses and in the open ground. Soil mixed with Peat Moss makes ideal material for seedlings and potted plants. It has good drainage and will not crust or bake after watering. Peat Moss becomes incorporated in the soil and adds humus to it.

HARRIS' PEAT MOSS is a very superior brand finely granulated, and free from any foreign matter. It is put up in bales, enough to cover more than 250 square feet 1 inch deep.

Price—Single bale \$2.75; 3 bales or more at \$2.60 per bale. Purchaser pays transportation. Write for prices on larger quantities.

Garden Line

Good strong hemp garden line.
50 feet 55c; 100 feet 85c; 200 feet \$1.35. Transportation paid.

Use "Fertile Pots" for better, earlier crops!

These scientifically made pots contain fertilizer in the right proportion for the best plant growth.

Set the seedlings in the pots and then plant in the field pot and all, the roots grow right through the pot. Saves handling and there is no checking of the plant even in dry weather.

Large growers find these pots not only save time and labor but actually produce earlier fruit and better yields.

Especially valuable for Early Cabbage, Egg Plant, Peppers, Tomatoes, Melons, Squash, etc.

PRICE: Fertile Pots are packed in cartons as follows:

No. 1½ (about 1½" dia.) per carton of 2000.....	\$14.00
No. 2 (about 2" dia.) per carton of 500.....	4.50
No. 3 (about 3" dia.) per carton of 335.....	4.00

We cannot sell less than single cartons of each size. All f.o.b. Coldwater, N. Y. Weight per carton about 40 lbs.

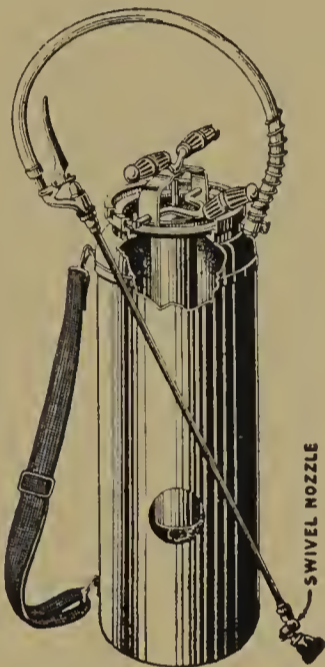

New "Open Hed" Sprayer

This new Brown Sprayer represents the first real improvement that has been made in hand sprayers in many years.

It combines the following new features with the well known superiority of the Brown sprayers.

1. Electrically welded seams
 2. Galvanized after fabrication
 3. Double Acting pump lock
 4. Tank opening is 5 in. in diameter
 5. Tank guaranteed for 100 lbs. pressure
 6. Rubber Double grip pump handle
 7. Pump unit completely assembled
 8. Adjustable small nozzle
- Write for descriptive literature.

No. 3¾ B. Open Hed 3¾ gal. Brass Tank..... \$9.45
 No. 3¾ D. Open Hed 3¾ gal. Galvanized Tank..... 6.10
 Transportation paid in U.S. east of the Mississippi River and north of Tennessee.

Raffia—Better than String

Used for heavy bundles of plants, for tying plants to stakes, for budding and grafting and many other purposes. It is very economical and costs less than string.

Lb. 35c; 5 lbs. \$1.50 transportation paid. Write for prices on large quantities.

PLANET JR.

Wheel Hoes and Seeders

These are the best made and most complete line of wheelhoes and seeders, and are used by commercial growers everywhere. Prices quoted below are f. o. b. Coldwater or factory.

WHEEL HOES:

Plant Early with Safety!

Germaco

Hotkaps

New Method of Plant Protection

In order to grow profitable vine crops, the grower must do everything possible to insure the greatest yield of early fruit at a minimum cost. The use of *Hotkaps* has proved a decided advantage in growing these crops.

We have tried a number of other plant protectors side by side with *Hotkaps* in our melon fields but have found none which have equal ability to stand high winds and beating rains.

Hotkaps are simply scientifically constructed wax paper cones, which are placed over the plant or hill of seeds in the field. They act as miniature hot houses, enabling the grower to set out his plants or plant his seed as soon as the ground is warm, as they afford perfect protection from frost, wind and beating rains. *Hotkaps* also protect the young plants from insects, such as the striped beetle which does so much damage to young plants. It also prevents the ground from baking around the plant. This makes for earlier and better fruit.

PRICES—250 with special setter and tamper \$3.65 (weight 9 lbs.) 250 without setter and tamper \$3.25; 500 with setter and tamper \$5.20; 500 without setter and tamper \$4.80; 1000 *Hotkaps* without setter and tamper \$9.65 (weight 26 lbs.) 5000—\$9.55 per 1000; 10,000 or more \$9.45 per 1000. Purchaser pays transportation.

For full details and prices of *Hotkaps* in smaller quantities see our General Retail Catalogue.

Steel *Hotkap* Setter and Tamper—\$1.50 (weight 3 lbs.). Not prepaid.

Folder giving full description and direction for using *Hotkaps* will be sent to anyone interested on request. Please write.
